AYER'S CATHARTIC PILLS,

For all the purposes of a Family Physic,

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Erruptions, and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum. Worms, Gout, Neuralgia, as a Dinner Pill and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disorded organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take, and being purely vegetable, they are entirely harmless.

A Tale of a Mocking Bird.

A MUTE AND MUTILATED SONGSTER BELIEVED BY A CINCINNATI JURY AGAINST THE OATHS OF FIVE MEN.

(From the Cincinnati Enquirer.)

Ludlow won that bird crse. It was not much of a case, so far as concerned the value in controversy, but it was a very pretty question of evidence, and there has been a great deal of talk about it. Ludlow is the general western agent of the Chesapeake and Ohio railroad. A year and a half ago he got him a mocking bird, especially to imitate locomotive whistles. He fostered and nourished that bird, and taught it to play ball with his children and whistle like the morning howl of an engine on the L., C. and L., and the bird was a special pet of all the railroad men at Third and Vine, until Ludlow moved to that new and truly magnificent office at the Gibson house. After the removal he was putting paint in the office—no railroad office in this city ever did have so much paint and varnish about it—and to save the bird from painters' colic, he left it at the Southern Shore line office below. One day while the bird was there, when all the gentlemen were on 'change (or thereabouts), the bird was feloniously stolen, taken and carried away, leaving a melancholy, empty cage. When Ludlow was told of the loss he did not drop his half-gathered skirts and weep, like the girl in the picture, but set himself diligently to work to find the bird. He traced it to a bird-house on Walnut street, and went away and offered to pay costs, etc., if the gentlemanly proprietor would return it. The gentlemanly proprietor, with unnecessary indignation, declared that no bird had came in there within two months. Thereupon Ludlow went to Carter's office and got a search warrant, and armed with that and constable Walter Lacy, he went back and interviewed the birds until he found one in appearance and manner like his own. This he carried away and left at the 'squire's office, where, says the constable, the bird did all that Ludlow said his bird would do; besides he had one long feather in his tail and a crooked right wrist. But on trial of the search warrant, the bird man, his son and two employes all swore they had brought that bird from New Orleans, and raised him, and taught him tricks, as they taught all their birds. Notwithstanding all the railroad men swore to the bird, and tried experiments, always successful, in the very presence of the court, Carter, who is an amiable man, and dislikes to find any witness guilty of purjury when there is any refuge for him, found for the defendant and dismissed the bird. Ludlow promptly got out a replevin and went to the store, but the dealer said he did not know what had become of the boy who had taken the bird from the magistrate's office, so the bird was not found. But the dealer was summoned to answer in damages, and on the day of trial, Ludlow being sick and absent, the suit was dismissed. When he got well he brought another replevin. In the meantime the bird man sued him for a thousand dollars, damages for the search warrant. On the second replevin Ludlow found a bird that answered to his in action, but it was very different in appearance, and particularly in the fact that in lighting on a perch it favored the left foot instead of the right. But its recognition of him was so decided that he concluded to take it and the consequences. And this was the case that Ludlow won. The bird man still swore to raising the former bird, and that they had sold it since the former trial to a man whose name they did not know; that the bird last taken had been purchased from them by a lady whose name they did not know; and that the bird then in court was still another bird, which had propably been substituted by Mr. Ludlow after the replevin, and for this they wanted damages. There was where they o'erleaped themselves, and developed a clear case of collusion of evidence. At least the jury thought so, for they not only found that it was Ludlow's bird and the same bird throughout, but they gave him $25 damages for its detention. Perhaps one reason for the damages was that the poor bird's left foot had been crippled by twisting one toe-nail completely up, so it was compelled to light on the other foot, and that its feathers had been broken and bent in places, and cut out in others, so that its appearance was changed, and it was made timid until Ludlow's chief witnesses were unable to identify it all, except by certain peculiar notes that Lev. Stark knew of old. The case was very hotly contested the entire afternoon, but the jury believed the bird in preference to the bird men—although mocking birds do lie outrageously sometimes—and promptly brought in a verdict for the plaintiff.

A New Through Railroad Line to New York.

It is understood that Commodore Vanderbilt has been induced to offer to the Central Vermont railroad through connections to New York by way of Bennington. Why this concession is made, is thus explained by the Burlington Free Press: "It is not any sudden streak of generosity in the Commodore, but a very simple regard for his own interests, which furnishes a much stronger guarantee of permanence in the arrangement. The New York, Boston and Montreal railroad owns lands on Spuyten Duyvel Creek, which it was proposing to make for the present the southern terminus of its road. As soon as the track now in process of completion at the southern end is finished, it was proposed to begin running trains to this terminus, taking thence its passengers and freight by steamer via the East river to the lower part of New York island. Now these lands of the New York, Boston and Montreal company lie just west of the bridge across the creek, over which all of Vanderbilt's passenger trains, by both the Harlem and Hudson River roads, reach the great Forty-second street depot.—The trains over that bridge average, the Press believes, about one every ten minutes of the twenty-four hours. There is a draw in the bridge, now seldom opened; but which would have to be open a good part of the day after the New York, Boston and Montreal road should commence running its steamers thro'. Mr. Vanderbilt was not slow to perceive, as the Times has heard, when his attention was called to the matter, that the delays and annoyances to his roads would be intolerable, if the New York, Boston and Montreal company chose to exercise their right of way in the manner proposed. He accordingly exercised a willingness to permit the New York, Boston and Montreal to run their passenger trains to the Forty-second street depot, and not only so, but to give the Harlem Extension satisfactory through connections to New York, until the New York, Boston and Montreal shall have completed its line from Chatham down. It is further proposed to make a freight line for all freight seeking water transportation from off the Central or Harlem Extension roads, via the Harlem road to Millerton (about thirty miles), thence over the Dutchess and Columbia division of the New York, Boston and Montreal road some twenty-five miles further to Fishkill, where the company will have extensive facilities for shipping. Thus everything promises a very strong and convenient through line, by the new route, which will give facilities both to freights and for passenger travel, to all Western Vermont, such as have never been offered before."

BREVITIES.

—Anna Dickinson has written a novel, which the Osgoods will publish some time this season.

—A parisian dentist, who lives in the suburbs, has a summer house built entirely of human teeth.

—There is a dog at Cheshire, Coun., more than two hundred years old. It belongs to a quarryman named Truman, and is of iron.

—A young lady of Virginia City recently eloped with a Piute Indian. With a prudence beyond her years she laid in a large stock of hair before going.

—A young man at Evansville coughed up a twenty-five cent currency note the other day, and he has gone right back to the boarding house whose hash he formerly complained of.

—A Salt Lake City paper declares that Brigham Young's new house will be "one of the most gorgeous and costly residences anywhere between sunrise and sunset."

—Sarah Jane DeFoe said that she would be married in her old Kentucky home, in spite of her father, and some men tied him to the sofa, the crowd walked in, and while he gnashed his teeth, Sarah Jane was wed.

A Tale of a Mocking Bird.

A MUTE AND MUTILATED SONGSTER BELIEVED BY A CINCINNATI JURY AGAINST THE OATHS OF FIVE MEN.

[From the Cincinnati Enquirer.]

Ludlow won that bird case. It was not much of a case, so far as concerned the value in controversy, but it was a very pretty question of evidence, and there has been a great deal of talk about it. Ludlow is the general western agent of the Chesapeake and Ohio railroad. A year and a half ago he got him a mocking bird, especially to imitate locomotive whistles. He fostered and nourished that bird, and taught it to play ball with his children and whistle like the morning howl of an engine on the L., C. and L., and the bird was a special pet of all the railroad men at Third and Vine, until Ludlow moved to that new and truly magnificent office at the Gibson house. After the removal he was putting paint in the office—no railroad office in this city ever did have so much paint and varnish about it—and to save the bird from painters' colic, he left it at the Southern Shore line office below. One day while the bird was there, when all the gentlemen were on 'change (or thereabouts), the bird was feloniously stolen, taken and carried away, leaving a melancholy, empty cage. When Ludlow was told of the loss he did not drop his half-gathered skirts and weep, like the girl in the picture, but set himself diligently to work to find the bird. He traced it to a bird-house on Walnut street, and went away and offered to pay costs, etc., if the gentlemanly proprietor would return it. The gentlemanly proprietor, with unnecessary indignation, declared that no bird had came in there within two months. Thereupon Ludlow went to Carter's office and got a search warrant, and armed with that and constable Walter Lacy, he went back and interviewed the birds until he found one in appearance and manner like his own. This he carried away and left at the 'squire's office, where, says the constable, the bird did all that Ludlow said his bird would do; besides he had one long feather in his tail and a crooked right wrist. But on trial of the search warrant, the bird man, his son and two employes all swore they had brought that bird from New Orleans, and raised him, and taught him tricks, as they taught all their birds. Notwithstanding all the railroad men swore to the bird, and tried experiments, always successful, in the very presence of the court, Carter, who is an amiable man, and dislikes to find any witness guilty of purjury when there is any refuge for him, found for the defendant and dismissed the bird. Ludlow promptly got out a replevin and went to the store, but the dealer said he did not know what had become of the boy who had taken the bird from the magistrate's office, so the bird was not found. But the dealer was summoned to answer in damages, and on the day of trial, Ludlow being sick and absent, the suit was dismissed. When he got well he brought another replevin. In the meantime the bird man sued him for a thousand dollars, damages for the search warrant. On the second replevin Ludlow found a bird that answered to his in action, but it was very different in appearance, and particularly in the fact that in lighting on a perch it favored the left foot instead of the right. But its recognition of him was so decided that he concluded to take it and the consequences. And this was the case that Ludlow won. The bird man still swore to raising the former bird, and that they had sold it since the former trial to a man whose name they did not know; that the bird last taken had been purchased from them by a lady whose name they did not know; and that the bird then in court was still another bird, which had propably been substituted by Mr. Ludlow after the replevin, and for this they wanted damages. There was where they o'erleaped themselves, and developed a clear case of collusion of evidence. At least the jury thought so, for they not only found that it was Ludlow's bird and the same bird throughout, but they gave him $25 damages for its detention. Perhaps one reason for the damages was that the poor bird's left foot had been crippled by twisting one toe-nail completely up, so it was compelled to light on the other foot, and that its feathers had been broken and bent in places, and cut out in others, so that its appearance was changed, and it was made timid until Ludlow's chief witnesses were unable to identify it all, except by certain peculiar notes that Lew. Stark knew of old. The case was very hotly contested the entire afternoon, but the jury believed the bird in prference to the bird men—although mocking birds do lie outrageously sometimes—and promptly brought in a verdict for the plaintiff.

A New Through Railroad Line to New York.

It is understood that Commodore Vanderbilt has been induced to offer to the Central Vermont railroad through connections to New York by way of Bennington. Why this concession is made, is thus explained by the Burlington Free Press: "It is not any sudden streak of generosity in the Commodore, but a very simple regard for his own interests, which furnishes a much stronger guarantee of permanence in the arrangement. The New York, Boston and Montreal railroad owns lands on Spuyten Duyvel Creek, which it was proposing to make for the present the southern terminus of its road. As soon as the track now in process of completion at the southern end is finished, it was proposed to begin running trains to this terminus, taking thence its passengers and freight by steamer via the East river to the lower part of New York island. Now these lands of the New York, Boston and Montreal company lie just west of the bridge across the creek, over which all of Vanderbilt's passenger trains, by both the Harlem and Hudson River roads, reach the great Forty-second street depot.—The trains over that bridge average, the Press believes, about one every ten minutes of the twenty-four hours. There is a draw in the bridge, now seldom opened; but which would have to be open a good part of the day after the New York, Boston and Montreal road should commence running its steamers thro'. Mr. Vanderbilt was not slow to perceive, as the Times has heard, when his attention was called to the matter, that the delays and annoyances to his roads would be intolerable, if the New York, Boston and Montreal company chose to exercise their right of way in the manner proposed. He accordingly exercised a willingness to permit the New York, Boston and Montreal to run their passenger trains to the Forty-second street depot, and not only so, but to give the Harlem Extension satisfactory through connections to New York, until the New York, Boston and Montreal shall have completed its line from Chatham down. It is farther proposed to make a freight line for all freight seeking water transportation from off the Central or Harlem Extension roads, via the Harlem road to Millerton (about thirty miles), thence over the Dutchess and Columbia division of the New York, Boston and Montreal road some twenty-five miles further to Fishkill, where the company will have extensive facilities for shipping. Thus everything promises a very strong and convenient through line, by the new route, which will give facilities both to freights and for passenger travel, to all Western Vermont, such as have never been offered before."

BREVITIES.

—Anna Dickinson has written a novel, which the Osgoods will publish some time this season.

—A parisian dentist, who lives in the suburbs, has a summer house built entirely of human teeth.

—There is a dog at Cheshire, Conn., more than two hundred years old. It belongs to a quarryman named Truman, and is of iron.

—A young lady of Virginia City recently eloped with a Piute Indian. With a prudence beyond her years she laid in a large stock of hair before going.

—A young man at Evansville coughed up a twenty-five cent currency note the other day, and he has gone right back to the boarding house whose hash he formerly compiained of.

—A Salt Lake City paper declares that Brigham Young's new house will be "one of the most gorgeous and costly residences anywhere between sunrise and sunset."

—Sarah Jane DeFoe said that she would be married in her old Kentucky home, in spite of her father, and some men tied him to the sofa, the crowd walked in, and while he gnashed his teeth, Sarah Jane was wed.

The Daily Freeman.

Kingston, Tuesday Morning, Nov. 25.

Lawyer Graham of New York is a wonderful fellow to cry. His heart is as tender as a child's. When he saved McFarland he wept for joy amid a chorus of female sobs and congratulations. Now that he has failed to save Tweed he weeps again in sorrow and dejection. Mr. Graham's facility to put himself in his clients' place so far as to cry on their account affords a refreshing view of the intrinsic goodness of human nature as it is in lawyers.

The so-called Republic of France has signed its own death-warrant in prolonging MacMahon's power to the limit announced in late dispatches. Perhaps viewed from a purely French standpoint the Assembly could hardly have done differently; yet the natural sequence follows all the same. MacMahon is an aristocrat and cherishes aspirations beyond the presidency of a chaotic democracy. Of this his friends and enemies are both well aware; so the immediate future of that nation will be devoted to manufacturing the history of the next *coup d'etat*.

Senator Cameron is certainly a bold man. He is reported as having said that Congress "would support any movement to sustain the national honor." How does Cameron know that? The slender opposition which was made in that body to the Back-Pay bill would, had it succeeded in defeating the measure, have exercised a marvelous influence "in sustaining the national honor." But Congress passed the bill and pocketed the money. Judging, according to Patrick Henry's theory, the "future by the past," how can the Senator from Pennsylvania foretell what Congress will do? Is he not rather justified in assuming that Congress will take care of itself first and the "national honor" afterwards? Or are the new men more virtuous than the old?

Uncle Daniel Drew cannot, it seems, leave off the tricks of a life-time. Finding Quicksilver stock naturally a very heavy thing to "carry" he proceeds to "unload" it upon one Alden, who at the time was blissfully insensible to the process. Then by a dextrous turn of his practiced wrist the veteran takes Alden into his confidence and secures his help in selling out certain stock of a semi-fictitious improvement company near Baltimore to other innocent and guileless parties. This last-mentioned stock was sold in turn at a sacrifice of one million dollars by Uncle Daniel's victims; who now sue that truly good man for damages. While we are exceedingly glad to see that the great Founder of Theological Colleges retains his faculties so remarkably in his advanced age, we at the same time regret the use to which he puts them. If anything like his vain ways were followed by an obscurer and poorer man what a delicious church investigation there would be. But money is like charity; it covereth a multitude of sins.

The Brodhead Matter.

The people will do well to watch their Supervisors just now. Rumors of all kinds are afloat, and all the influences of the defaulting Treasurer's friends are now concentrated upon effecting a settlement with Schoonmaker and Cooper, and with Brodhead himself. The Board had a secret session yesterday and are to have another to-day. These secret sessions are an abomination in the eyes of the people; treating with these men who have deceived and falsified so often should be done with open doors, so that every tax-payer knows just what is being done. In the meantime it is a matter of curiosity to see whom Brodhead's deadly touch is to kill off this time.

"Castelar in Difficulty."

GARDINER STATION, Nov. 22, 1873.

MESSRS. EDITORS:—In your editorial of this date headed "Castelar in Difficulty," the closing sentence appears to me very rough, viz: "Meanwhile it is to be *increasingly* regretted that a cargo of *human* beings so *lawless* and *contemptible* as was that of the Virginius should have involved us in so serious a dispute." How many *cargoes* of *lawless* and *contemptible* human beings (who are not lawless and contemptible till they are by due process of law proven so) would you have sacrificed? Many American citizens would like to know as well as myself. Respectfully,

W. A. JONES.

P. S.—I presume you will pay no attention to this communication; but just such sentiments are what does more injury to this country than anything. Speak of *human* beings being sacrificed by the *cargo*, forsooth! and so lightly!

Our correspondent will see that he is mistaken; his article, like every other sent us in respectful language upon a public subject, appears in The Freeman. He errs quite as badly as regards the sense of the article to which he objects. Regretting that a set of worthless filibusters and vagabonds, as those of the Virginius indisputably were, have involved us in a difficulty whose possible end may be war, is by no means a justification of their slaughter. That is a crime against humanity, against which the United States can protest. For Mr. Jones to ask The Freeman how many cargoes we would sacrifice because we think and say this cargo was a lawless and contemptible set, is about as ridiculous a *non sequitur* as if, for saying there was a good apple crop this year, we should be peremptorily called upon to inform Mr. Jones how many slaughtered grandmothers it would take to satisfy our thirst for blood.

Let us say to "many American citizens" that a reasonable degree of calmness and good sense in this matter will save them from a great deal of foolishness.

A Dramatic Scene.

Nothing presented to admiring audiences upon the mimic stage for years, if ever, has begun to equal in dramatic intensity the scene in the court room at the sentencing of William M. Tweed. The prisoner, pale and haggard with anxiety and sleeplessness, despairingly awaited his certain and swift-coming doom. He had no protest to make, no plea to offer why the penalty of the law should not be pronounced against him. He sat smitten and crushed beyond the benefit of talk or the indulgence of idle and irrational hope. His counsel lost their heads, and for once the cunning, insolent and sophistical tongue of John Graham could do no more for a client than to bunglingly beg for unmerited mercy. Amid a silence which was awful in its suggestiveness the boldest and most rapacious robber of the century descended to a felon's place.—There is a teaching in the picture beyond the truth that once in a while juries will accidentally agree; the instruction is that wickedness *never* really prospers. Fisk is dead and Tweed is dead. The fact that the latter still breathes makes little difference; he is dead as an Egyptian mummy in the tombs of its fathers. Barnard is defunct, Cardozo is unhorsed, and in short, the dynasty of two or three years ago, omnipotent during its reign, is irretrievably broken and scattered. There is a power in law greater than law by which the wrong-doer is ultimately made his own prosecuting-attorney, jury and judge, and all concerned will do well to take it to heart.

Just the Thing.

We cannot do less than admire the foresight and patriotism of the New York Sun, which, having already discounted a war with Spain, goes on to tell us how to fortify our harbors. Torpedoes are the thing, says the great victim of the "attempted outrage"; just let us put plenty of torpedoes in the mouths of all our harbors, and there we are, all right. Then imagine a cruiser of that "effete monarchy" trying to come in. We should touch an electric button in the Sun office, or some other convenient place, and blow the cruiser higher than Donaldson's pet balloon. So the Dons will be the only ones to suffer after all, as we shall not go over to their place to put ourselves in danger of being blown up. The grand, culminating beauty of this little programme remains to be indicated. It is this: Inasmuch as Spain will be too busy in fighting her home enemies to find time to make and fetch over any torpedoes with which to guard Cuban harbors, our magnificent navy can possess the island without opposition. This, at least, is Dana's idea. We submit to a peace-loving public that nothing better for us has been suggested or is likely to be. We shall not fight Spain; we shall fix our glycerine infernal-machines and then notify the bloodthirsty barbarians to come and be blown up. The Sun intimates that the shells of the torpedoes should be of iron. Do any of Dana's relatives own a foundry?

CURRENT TOPICS.

—Reverdy Johnson is out on the Cuban affair and of course is for peace.

—The protest of those heavy New York capitalists seems to have settled the Industrial Exhibition business.

—Phil Sheridan telegraphs that he "feels the spirit rising in him" about this Cuban affair.

—The New York Times wants Judge Davis' address on sentencing Tweed inserted in the public school primers, that the children may learn a healthy abhorrence of rascality.

—A new species of political animal has been discovered. Cobb, the candidate for Mayor of Boston, is spoken of as "a modified Democrat with Republican tendencies."

—We should think it was time the English government put a stop to the silly Guy Fawkes celebrations, which are kept up with disgusting pertinacity, and sometimes serious results, year after year.

—The New York Herald lays this early winter and consequent close of the canals to the panic. At least that is all we can make out of it. But aren't we laying altogether too much to the panic?

—We are glad to learn of the Tribune's financial prosperity. It is a very common thing to see it announce that it has more advertisements than it can possibly publish; and it charges high prices, too.

—It is rather singular, in view of our recent amicable settlement with Great Britain, that nobody has thought until now of proposing arbitration in this Spanish business.

—Isn't it quite likely, now that Tweed has been convicted, that if the other Ring suits are continued there will be a great revelation of "Tweed-tarred" politicians throughout the state?

—Here is another sad case of fallen greatness. The Cardiff Giant, of whom probably all of our readers have heard and with whom many of them might have been acquainted, in his days of glory, has been sold for eight dollars, greenbacks! "What a fall was there, my countrymen!"

—The Philadelphia Age begins an article on "Spain and the United States" with: "Apart from the red-handed readiness with which the Spanish authorities butchered," &c. Whereupon the Buffalo Courier asks: "Why would not 'red-headed handiness' do as well?" The Courier has always been noted for ready rhetoric.

—The Cincinnati Commercial wants the American people to keep out of this muddle. Good enough advice, as a general thing, Brother Halstead. The American people ain't fond of a fuss; but when the dirty Spaniard begins to splash mud on them, and keeps right on splashing, why then the old Adam sort o' rises up and says, "By the everlasting jingo, boys, splash back!"—*Brooklyn Argus.*

NEWS OF THE DAY.

—Tweed is sixty-six years old.

—Japan has a ministerial crisis.

—The members of the French Cabinet have withdrawn their resignations.

—The Pacific Mail steamship Ariel was wrecked off the coast of Japan October 24th.

—President Lerdo has presented to the Mexican Congress a contract with the Mexican Company for the construction of an interoceanic railroad.

—A number of the printers on stike at Pittsburg have been arrested for conspiracy. Nearly all the offices are working with nonunion men.

—The total strength of the Patrons of Husbandry in the United States, according to the report of the Secretary of the National Grange, is 8,262 granges, with a reported membership of 619,550.

—Gov. Parker of New Jersey is reported to have said that he could furnish 5,000 troops for the Cuban war in a very short time.

—The sale is announced by Osgood & Co. of the Atlantic Monthly to Hurd & Houghton, and of Our Young Folks to Scribner & Co.

—The change in the weather makes it probable that the ice-bound boats on the canals will be enabled to get through, thus saving thousands of dollars.

—The suit of Bierdermann & Co. against Daniel Drew and others, for $1,000,000, is expected to bring out important facts hitherto kept from the public.

—Two men endeavored to obtain admission to the monitor Dictator at New London, Friday night, and on being refused by the watchman they fired upon him and ran. The watchman returned the fire without effect.

—The inhabitants of north-western Iowa, particularly within the counties of Lyon and Osceola, have been suffering severely for lack of the actual necessities of life, caused by the utter failure of the grain crop there last summer. These sufferers are in need of everything in the way of food, fuel and clothing. Several women have died from want.

Steel Bars Instead of Bells.

Steel bars produce very pure, distinct and melodious sounds, and possess many advantages over church bells of moderate size. In Germany they are in some measures supplanting bells in church steeples, and an English publication, the Choir, advocates their general use, on the ground that while in point of sonorousness they are equal to the common bell, in certain other respects they are to be preferred to it. Thus, their weight will be light in comparison with the ponderous engines they are to replace. They will not burden the steeple so much, and consequently will give more scope for architectural design. Their winding and hanging up will not be so difficult, dangerous, and expensive. They are not liable to crack, as is the case with bells, and are therefore adapted for use in any climate. They can be operated by a simple mechanical contrivance.

The cost of these bars is so low that three or four of them, forming a peal, whose weight would not exceed one hundred pounds, could be manufactured in England for fifty or sixty dollars, whereas three bells of the same power would cost five times as much. They can be made of any dimension, weight, or power of sound. Every note or harmony can be produced more easily, and the tuning is obtained more precisely, than in cast bells. Of course these bars are also adapted for use wherever bells are now employed.—*Galaxy for December.*

A Chicago Barrel of Pork.

The Chicago provision trade, during the past summer season, caused the adoption of rules by the Board of Trade of that city, by which one hundred and ninety pounds of green meat, instead of one hundred and ninety-six pounds, were made the packing weight of a barrel of mess pork. The reason offered by the trade for the change was, to do away with the inducement to repack for the overweight of the meat in excess of 200 pounds. It is claimed that in the overhauling process the original pickle is usually thrown away, and a new brine substituted, which tends in a great measure to destroy the flavor of the meat, thereby injuring its quality and character. Also, that the benefits derived from the overhauling process do not go to either the packer or the consumer, but that both are injured by the tampering with the original package.

BELGIUM.

An American Ship Burned.

ANTWERP, Nov. 24.—The American ship Westmoreland, Captain Heron, which arrived here on October 29th from Philadelphia, was destroyed by fire to-day.

GERMANY.

An Unsatisfactory Explanation.

BERLIN, Nov. 24.—The explanations given by the French government in regard to the pastoral of the Bishop of Nancy ordering prayers for the recovery of Metz and Strassburgh are regarded as unsatisfactory.

A SEVERE MEASURE.

The bailiffs entered the residence of Archbishop Ledochowski last week, in accordance with the decree of court, and seized the furniture. The Archbishop maintains an attitude of resistance, although surprised at the severity of the measure.

ITALY.

A Triumph for Arbitration.

ROME, Nov. 24.—In the Chamber of Deputies to-day Signor Mancini made an eloquent speech in support of the principle of arbitration and praised the conduct of the United States and Great Britain in the settlement of the Alabama claims.

After the speech of Signor Mancini in the Chamber of Deputies to-day a resolution recommending the introduction of an arbitration clause in all future treaties with foreign powers was unanimously adopted.

THE ERIE CANAL.

Effect of the Change of Weather.

ALBANY, Nov. 24.—It rained steadily here all day and there is a prospect of getting the entire fleet of boats on the canal through. All on section No. 1 have reached the river.

THE NATIONAL CAPITAL.

Shutting Down on the Comanches.

WASHINGTON, Nov. 24.—The Commissioner of Indian Affairs to-day sent the following telegram to Hayworth, United States Indian Agent at Fort Sill, Indian Territory:

"Issue no more annuities to the Comanches. The demand for five raiders and murderers is not remitted, and if not complied with in ten days after the receipt of this dispatch you will stop their rations entirely and if they still refuse they will be handed over to the military. Assure the Indians that the government is in earnest and that arrangements are already being made to compel the Comanches to do right."

THE PANIC ENDED.

Resumption of the Harmony Mills.

TROY, N. Y., Nov. 24.—The Harmony Mills at Cohoes, employing nearly 5,000 persons, resumed work on full time to-day. Gilbert, Bush & Co., car manufacturers on Green Island, employing 300 men, resumed work on three-quarter time to-day.

RESUMPTION OF THE NEWBURGH MILLS.

NEWBURGH, Nov. 24.—Work was partially resumed this forenoon, after a suspension of several weeks, in the Newburgh steam mills in this city.

RESUMPTION AT WAPPINGERS FALLS.

POUGHKEEPSIE, Nov. 24.—The calico department of the print works at Wappingers Falls resumed work to-day, giving 250 men employment.

THE LATEST MUNICIPAL STEAL.

Investigating Pittsburg's Affairs.

PITTSBURG, Nov. 24.—A meeting of the Finance Committee of the City Council was called this afternoon to investigate the rumored irregularities in the finances of the city.—A sub-committee developed the fact that there has been an informal issue of water bonds, the Secretary of the commission having effected certain negotiations with the National Trust Company of this city, which suspended a few days ago, without the knowledge of the commission.

A letter from the City Attorney addressed to the chairman of the Finance Committee states that the facts thus far ascertained are as follows: Money proceeds of the bonds held on deposit at the National Trust Co., $223,000; bonds left with the bank for negotiation, water works, $254,000; bonds left with the bank for registration, Thirty-third street improvements, $50,000; less credit of $30,000. The water loans and street bonds have been, to the best of my information, hypothecated by a bank in Philadelphia as collateral security for the payment of the obligations of the bank. The $223,000 proceeds of the bonds sold should have been deposited in the city treasury, but it seems that it was placed in the National Trust Co. in the Secretary's own name. There is now $514,000 in bonds and money in this condition, but it is believed to be secured to the city, as the stockholders of this bank are individually liable.

THE INDIAN TERRITORY.

A Dastardly Outrage and Robbery.

PARSONS, Kansas, Nov. 24.—Walt Grayson, a Creek Indian, farmer and stock dealer living near here, was robbed Friday night of over $3,000, mostly in gold and silver, by a party of three white men. One of the robbers had been at Grayson's house for two or three days under pretence of buying horses. His confederates arrived on Friday evening well mounted and heavily armed, and Grayson was immediately seized and a demand made for the money. He refused to deliver it, whereupon he was hung to a tree until nearly insensible. He still refused to give up his money and the hanging was repeated six or seven times, and not until the robbers threatened to hang his wife did he reveal the place of its concealment. Grayson lies in a precarious condition. $1,500 reward is offered for the arrest of the robbers.

A DESPERATE STATE OF THINGS.

Since the withdrawal of the United States Marshals from the Indian Territory the number of murders are largely on the increase. The agents of various tribes say that it is absolutely necessary that Congress should interfere and give the civilized Indians a government that will protect life and property. The assassinations in the territory averaged twenty per month during the past month, and there has not been one execution under Indian laws. The Creek council adjourned without doing anything excepting to pass a law forbidding any Indian to rent to or permit any white person to occupy any building on the territory of the Creek nation. They refused to allow white railroad employees and others to build a house for school and church purposes at Muskage.

MORE TROUBLE FOR SPAIN.

A Couple of German Vessels Captured by the Spaniards.

SAN FRANCISCO, Nov. 24.—The steamer Great Republic brings the following intelligence from China:

The steamer Zeipka brought to Hong Kong news of the seizure of the German vessels Maria Louise and Gazelle by a Spanish man-of-war off Sooloo. The vessels were brought to Manilla. The crew of the Gazelle were liberated. The Captain and super-cargo of the Maria Louise managed to escape and the Spaniards declare that they will be treated as spies if caught outside the respective consulates. The super-cargo claims the protection of the British consul and the Captain that of Germany. The latter states that the vessels were sixteen miles off Sooloo when captured and that according to law a blockade extends only nine miles, and further that the Spanish authorities had not declared any blockade.

OUR SPANISH RELATIONS.

NAVAL PREPARATIONS STILL GOING ON.

FRIENDLY TONE OF SPANISH OFFICIALS.

Work at the Navy-yards.

NEW YORK, Nov. 24.—Work at the Brooklyn navy-yard is very brisk, men being paid double wages. The Colorado will be the first vessel off, and she will be ready by Saturday, or on Monday at the farthest. The Dictator will be the next in order to leave the yard. Not much is to be done to her and double gangs are at work.

PHILADELPHIA, Nov. 24.—Thirteen hundred men are now employed at the navy-yard. The monitor Ajax was taken off the dry dock yesterday and the Terror takes her place today. The monitors Nantasket and Jason have been sent to private yards for repairs. It is reported that all the monitors at League Island will be put in order at once.

A DENIAL FROM MINISTER SICKLES.

LONDON, Nov. 24.—The agent of the Associated Press here is authorized by Minister Sickles to say that there is no foundation for the report published in New York on the 21st to the effect that he (Sickles) had broken off social relations with the Foreign Minister and that he expressed the opinion that war is inevitable. The agent is authorized to state that there is no foundation whatever for the dispatch; that official and personal relations between Minister Sickles and the Spanish officials are unchanged and that Minister Sickles has not expressed any opinion as to the result of the pending question.

ARRIVAL OF BRITISH VESSELS AT SANTIAGO.

HAVANA, Nov. 24.—The British gunboat Wood Lark arrived at Santiago de Cuba on the 18th and on the following day the ship-of-war Danae, with Commodore de Horsey, senior officer at Jamaica, arrived from Port Royal. General Burriel embarked on the steamer Trinidad for Havana before Commodore de Horsey came ashore.

A JUST CAUSE OF COMPLAINT.

LONDON, Nov. 24.—The Spanish press complain that the enemies of Spain telegraph false news to the United States.

RESOLUTIONS BY THE REPUBLICAN CENTRAL COMMITTEE.

NEW YORK, Nov. 24.—The Republican Central Committee met last evening, Hugh Jordan presiding. The Committee on Resolutions presented the following, which were unanimously adopted:

WHEREAS, The seizure of the steamer Virginius upon the high seas while sailing under the protection of the American flag and the inhuman barbarity inflicted upon her unresisting crew has aroused a feeling of universal indignation among the people; and

WHEREAS, The Republican Central Committee, in common with other citizens, feel called upon to express its abhorrence of such atrocities; therefore, be it

Resolved, That the recent acts of outrage upon a vessel carrying our national flag and the brutal and summary execution of the persons seized on board the Virginius demands speedy redress and such indemnity for the future as will prevent the repetition of such acts.

Resolved, That we extend our deepest sympathy to all people struggling for freedom and redress from the power of tyranny and despotism.

Resolved, That if the people of Spain are sincerely desirous of establishing a republican form of government their first act marking the consistency and justice of their professions will be the release from subjection of any portion of their territory; to give liberty to the slaves, and to the people of Cuba a government of their own choice.

Resolved, That we rely with entire confidence upon the wisdom and patriotism of the administration and war-making power of the country to take such action as may be necessary to vindicate the honor of the nation consistent with the obligations of government and the best interest sof the whole people.

A resolution was also adopted that copies of these resolutions should be forwarded to President Grant and the members of the Cabinet.

NOTHING NEW FROM SPAIN.

WASHINGTON, Nov. 24.—There is nothing really new to-day in regard to Spanish affairs except an intimation merely, through British sources, of the probability of Marshal Serrano being declared military dictator.

THE BOSS MURDERER WILLING TO OBEY.

MADRID, Nov. 24.—President Castelar has received a dispatch from Captain General Jouvellar assuring the home government that the authority of the republic will obeyed be in the island of Cuba.

COMMENTS OF THE ENGLISH PRESS.

LONDON, Nov. 24.—The Daily Telegraph compares the Virginius with the Trent affair. Although it fears that the rumored ultimatum of the American government would be fatal to peace, still it thinks President Castelar, in view of the internal troubles of Spain, could honorably follow the example of President Lincoln and grant the demands of the United States.

METROPOLITAN NEWS.

The Case of Tweed's Counsel.

NEW YORK, Nov. 24—12 M.—Tweed's counsel appeared in the Court of Oyer and Terminer this morning, in response to Judge Davis' summons. The latter, looking sternly at them and calling them by name, said he was ready to hear either of them. Fullerton said he wished to understand what the order of the proceedings would be. Judge Davis replied that the counsel should know, and proceeded to state the nature of the papers passed up to the Court at the beginning of the trial.—Fullerton denied any intention of disrespect towards Judge Davis, which disclaimer Judge Davis accepted.

The document referred to claimed that Judge Davis had expressed an opinion in the case and that he was biased in the case and consequently should not preside.

TWEED IN STOKES' QUARTERS.

Late this afternoon Tweed was removed to the parlor in the Tombs recently occupied by Stokes as a sitting-room.

Counsel in the Tweed case will present a bill comprising nine objections on which to base arguments for a stay of proceedings.—The prosecuting officer may ask time to consider the bill of exceptions and Judge Davis may possibly take some time to consider the points presented. It is reported that in the meantime Tweed will not be placed on Blackwell's Island.

THE UNION TRUST COMPANY.

The meeting of the Union Trust Company to-day reached no final decision on resumption of business, but a director states that the company expects to resume Monday next.

A STARTLING EXPOSE PROMISED.

It is stated that detectives will make arrests of the parties who lately floated half a million dollars' worth of forged United States bonds and securities. Facts of a startling nature are promised.

PROVIDING WORK FOR LABORERS.

The Commissioners of Docks to-day promised the volunteer legislative committee on employment that they would give work to all the men that could be made available this winter.

THE BOILER EXPLOSION.

NEW YORK, Nov. 24.—The investigation into the cause of the Harlem boiler explosion was resumed to-day. Several portions of the boiler, including the roof, weighing 1,400 pounds, was placed in the inquisition room for the inspection of the jury and counsel. William Johnson, the engineer, testified that the boiler had a flaw or leak.

HARRY GENET'S CASE.

The charges on which Harry Genet was arrested to-day were of grand larceny in connection with the Harlem court frauds investigation by the State Senate last year.

DEVELOPMENTS OF THE BROOKLYN INVESTIGATION.

An investigation in Brooklyn shows that $300,000 has been paid for work on the penitentiary worth $100,000, including nearly $13,000 for a barn, all of which was unauthorized.

PROMINENT POLITICIANS TO BE ARRESTED.

Commissioner Davenport, it is reported, will issue warrants for the arrest of prominent politicians, charged with fraud at the last election.

BROOKLYN'S POOR.

The Charity Commissioners of Brooklyn state that they cannot meet a quarter of the demands for assistance made on them by the poor.

A MYSTERIOUS DISAPPEARANCE.

Captain Schroot and his little daughter are missing. He was a German sea captain and had a large amount of money with him last Friday, since which time he has not been seen, having left his wife in Boston while he purchased some newspapers.

PRECAUTIONARY MEASURES.

The recent escapes from the Tombs led the Commissioners of Correction to-day to adopt a rule admitting no visitors without a pass from one of the Board of Commissioners.

INGERSOLL'S PARTNER ARRESTED.

It is understood that Farrington, Ingersoll's Ring partner, who was arrested on Saturday, will be tried alone. It is reported that other Ring arrests will be made to-morrow.

REPORT OF THE COMPTROLLER OF THE CURRENCY.

His Suggestions Regarding the National Banking System.

WASHINGTON, Nov. 24.—The report of the Comptroller of the Currency contains an exhaustive rehearsal of the system of free banking up to the time of the establishment of the national banking system, and says:

The amount of national bank notes now authorized to be issued is $354,000,000 and the amount of legal tender notes $356,000,000, so that the proportion of legal tender money, in which national bank notes are now redeemable, is nearly identical, though slightly in excess. If the national banking law were amended so as to require redemption of national bank notes in legal tender notes at one-quarter of one per cent. discount, as in the New York state law, instead of at par, as provided in the national currency act, and the national banks of the whole country would agree to such a provision of law, a prompt redemption of the national bank notes would be insured; but the redemption of that vast amount of circulating notes, if redeemed but once a year, would result in great loss to the people of the United States. A system of redemption of this kind would also at once increase the rate of exchange from the rate of one-tenth of one per cent., now existing at most periods of the year between the different cities of the Union, to from one-half per cent. to one per cent., thus restoring, to a considerable degree, the condition of the exchange at the time of the inauguration of the national banking system and insuring a loss to the people annually of millions of dollars. Such a system would, however undoubtedly result in the return of the notes of national banks at certain seasons of the year when they were not needed to the vaults of country banks, to be paid out when the demand for currency increased.—Such a system would also give what is exceedingly desirable at the present time—elasticity to the currency.

In order to insure the prompt redemption of national bank notes the amount issued must be so much increased that the notes will be, say at ½ of 1 per cent. discount, and this would probably not be accomplished until an addition was made to the present circulation of $461,000,000. The same result would follow from a reduction of the volume of legal tender notes simultaneously with an increase of the issue of bank notes; but Congress has frequently refused to diminish the amount of legal tender notes; so the Comptroller is of the opinion that any general system of free banking, accompanied with redemption, must be postponed until the resumption of specie payments.

The Comptroller, in order to avoid any misapprehension of his views upon this subject, desires to state that he is not an advocate of any permanent system of currency usually known as irredeemable currency. He believes, however, that the people of this country ought not and will not submit to the high rates of exchange prevailing previous to the war, and that an amendment to the national currency act which shall result in restoring high rates of exchange will also result in the downfall of the system of banking, which it is believed will yet become the most satisfactory of any system ever established.

The report concludes as follows:

"It is to be hoped that previous to the return to specie payments some system will be adopted which will give abundant elasticity to the currency without incurring the expense and burden of general redemption and without loss resulting from the high rates of exchange which have always prevailed under such a system."

A MISSING VESSEL.

Apprehensions of Her Loss.

HALIFAX, Nov. 24.—Grave apprehensions are felt here for the safety of her Majesty's ship Sirius, now thirty-six days out from Halifax for England. She had a crew of nearly 300 men. When leaving port the Captain expressed confidence in making the passage in a fortnight.

THE WEATHER.

To-Day's Probabilities.

For the Middle States and New England northwesterly winds, cloudy weather and occasionally snow and rain in the latter, temporarily clearing in both sections by Tuesday forenoon.

—An oscillating steam engine of one-eighth horse power, so composed as to be portable in a coat pocket, is to be applied to the driving of sewing machines in Worcester, Mass., factories.

—Coleridge, when lecturing as a young man, was once violently hissed. He immediately retorted: "When a cold stream of truth is poured on red-hot prejudices, no wonder that they hiss."

—A Chinaman came down one of the main streets in Millerton, Cal., on election day, in a state of inebriation and of joyful exaltation, and thus delivered himself: "Hoop la! me all same Melican man. Hair cut short and dlunk like h—l. Hoop la!"

—The daughter of a Sioux chief has appeared upon the operatic stage in San Francisco. The critics state that Parepa Rosa does not equal her in volume of sound nor in music of voice, and yet Parepa Rosa has had the instruction of European masters, while Miss Rat Trap has had no such advantages and has no Italian name.

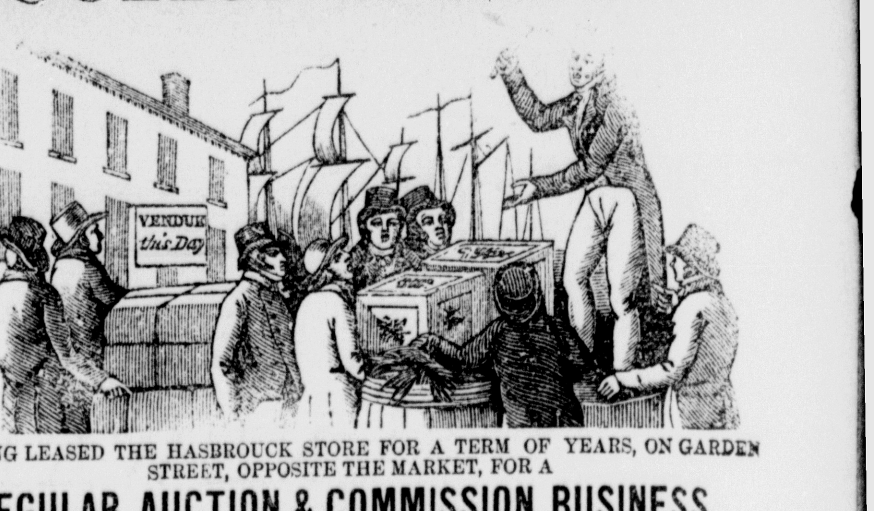

—In the suit for the condemnation of property for the new government buildings at Cincinnati, the jury in one case placed the compensation at $1,000 per foot front, the lot running 200 feet deep. The whole amount to be taken by the government for the purposes named will involve about $1,000,000.

—At Lyons, France, thieves introduced themselves into a country-house which is uninhabited during the winter, and passed the Easter week there at their ease, eating the provisions, drinking all the wine in the cellars, and making themselves quite at home in every respect.

—A hint for Nast. Uncle James walking with niece Mary, aged four, points to the moon, on whose disk the dark parts show quite plainly, and says: "There is a man in the moon burning brush." The infantile realist puts up her little nose and sniffs, saying: "Yes, I 'mell the 'moke."

—A peculiar way of discharging printers exists in the Dayton, Ohio, offices. Each compositor has a nail to hang his coat on, and when the foreman concludes to dispense with the services of one of the hands he takes a hammer and drives the nail in to the head.

THE SUN.

Weekly, Semi-Weekly and Daily.

THE WEEKLY SUN is too widely known to require any extended recommendation; but the reasons which have already given it fifty thousand subscribers, and which will, we hope, gave it many thousands more, are briefly as follows:

It is a first-rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always presented in a clear, intelligible, and interesting manner.

It is a first-rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste.

It is a first rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first-rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no collar. It fights for principle, and for the election of the best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country, and threaten to undermine republican institutions altogether. It has no fear of knaves, and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle-markets, to which it pays particular attention.

Finally, it is the cheapest paper published. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have THE WEEKLY SUN at this rate. Any one who sends a single dollar will get the paper for a year.

We have no travelling agents.

THE WEEKLY SUN.—Eight pages, fifty-six columns. Only $1.00 a year. No discounts from this rate.

THE SEMI-WEEKLY SUN.—Same size as the Daily Sun. $4.00 a year. A discount of 20 per cent. to clubs of 10 or over.

THE DAILY SUN.—A large four-page newspaper of twenty-eight columns. Daily circulation over 120,000. All the news for 2 cents. Subscription price 50 cents a month, or $6.00 a year. To clubs of 10 or over, a discount of 20 per cent.

THE COUNTRY GENTLEMAN.

VOLUME FOR 1874.

THE CULTIVATOR AND COUNTRY GENTLEMEN, for the past forty years, has ranked, both in this country and abroad, as the Standard Journal of American Agriculture. The Editors and Proprietors, in addition to their own personal labors, are regularly assisted by a very large number of Special Correspondents and Regular Contributors, among whom are included many Leading Agriculturists, in all parts of the country, east and west—and by over *Five Hundred Occasional and Voluntary Writers*, directly in the ranks of the best Farmers and Horticulturists of nearly every state in the Union. With the co-operation of so large a corps of practical men, this journal is intended to possess exceptional value as the chosen *Medium of Intercommunication* among all classes interested in the Products and Fertility of the land—those who cultivate and those who consume—the buyer and shipper, as well as the first owner of the crop—breeders of improved animals and their customers—manufacturers of improved machinery and those who purchase and employ it—nurserymen and fruit raisers—and, especially, to supply fuller and better data as to the progress, prospects and returns of each successive season, as throwing light upon one of the most important of all questions—*When to Buy and when to Sell.*

TERMS—THE COUNTRY GENTLEMAN is published weekly, on the following terms, when paid strictly in advance:—One copy, one year, $2.50; Four copies, $10, and an additional copy for the year free to the sender of the club; Ten copies, $20, and an additional copy for the year free to the sender of the club.

LUTHER TUCKER & SON, Publishers, Albany, N

The Daily Freeman.

Kingston, Tuesday Morning, Nov. 25.

Lawyer Graham of New York is a wonderful fellow to cry. His heart is as tender as a child's. When he saved McFarland he wept for joy amid a chorus of female sobs and congratulations. Now that he has failed to save Tweed he weeps again in sorrow and dejection. Mr. Graham's facility to put himself in his clients' place so far as to cry on their account affords a refreshing view of the intrinsic goodness of human nature as it is in lawyers.

The so-called Republic of France has signed its own death-warrant in prolonging MacMahon's power to the limit announced in late dispatches. Perhaps viewed from a purely French standpoint the Assembly could hardly have done differently; yet the natural sequence follows all the same. MacMahon is an aristocrat and cherishes aspirations beyond the presidency of a chaotic democracy. Of this his friends and enemies are both well aware; so the immediate future of that nation will be devoted to manufacturing the history of the next *coup d'etat*.

Senator Cameron is certainly a bold man. He is reported as having said that Congress "would support any movement to sustain the national honor." How does Cameron know that? The slender opposition which was made in that body to the Back-Pay bill would, had it succeeded in defeating the measure, have exercised a marvelous influence "in sustaining the national honor." But Congress passed the bill and pocketed the money. Judging, according to Patrick Henry's theory, the "future by the past," how can the Senator from Pennsylvania foretell what Congress will do? Is he not rather justified in assuming that Congress will take care of itself first and the "national honor" afterwards? Or are the new men more virtuous than the old?

Uncle Daniel Drew cannot, it seems, leave off the tricks of a life-time. Finding Quicksilver stock naturally a very heavy thing to "carry" he proceeds to "unload" it upon one Alden, who at the time was blissfully insensible to the process. Then by a dextrous turn of his practiced wrist the veteran takes Alden into his confidence and secures his help in selling out certain stock of a semi-fictitious improvement company near Baltimore to other innocent and guileless parties. This last-mentioned stock was sold in turn at a sacrifice of one million dollars by Uncle Daniel's victims; who now sue that truly good man for damages. While we are exceedingly glad to see that the great Founder of Theological Colleges retains his faculties so remarkably in his advanced age, we at the same time regret the use to which he puts them. If anything like his vain ways were followed by an obscurer and poorer man what a delicious church investigation there would be. But money is like charity; it covereth a multitude of sins.

The Brodhead Matter.

The people will do well to watch their Supervisors just now. Rumors of all kinds are afloat, and all the influences of the defaulting Treasurer's friends are now concentrated upon effecting a settlement with Schoonmaker and Cooper, and with Brodhead himself. The Board had a secret session yesterday and are to have another to-day. These secret sessions are an abomination in the eyes of the people; treating with these men who have deceived and falsified so often should be done with open doors, so that every tax-payer knows just what is being done. In the meantime it is a matter of curiosity to see whom Brodhead's deadly touch is to kill off this time.

"Castelar in Difficulty."

GARDINER STATION, Nov. 22, 1873.

MESSRS. EDITORS:—In your editorial of this date headed "Castelar in Difficulty," the closing sentence appears to me very rough, viz: "Meanwhile it is to be *increasingly* regretted that a cargo of *human* beings so *lawless* and *contemptible* as was that of the Virginius should have involved us in so serious a dispute." How many *cargoes* of *lawless* and *contemptible* human beings (who are not lawless and contemptible till they are by due process of law proven so) would you have sacrificed? Many American citizens would like to know as well as myself. Respectfully,

W. A. JONES.

P. S.—I presume you will pay no attention to this communication; but just such sentiments are what does more injury to this country than anything. Speak of *human* beings being sacrificed by the *cargo*, forsooth! and so lightly!

Our correspondent will see that he is mistaken; his article, like every other sent us in respectful language upon a public subject, appears in The Freeman. He errs quite as badly as regards the sense of the article to which he objects. Regretting that a set of worthless filibusters and vagabonds, as those of the Virginius indisputably were, have involved us in a difficulty whose possible end may be war, is by no means a justification of their slaughter. That is a crime against humanity, against which the United States can protest. For Mr. Jones to ask The Freeman how many cargoes we would sacrifice because we think and say this cargo was a lawless and contemptible set, is about as ridiculous a *non sequitur* as if, for saying there was a good apple crop this year, we should be peremptorily called upon to inform Mr. Jones how many slaughtered grandmothers it would take to satisfy our thirst for blood.

Let us say to "many American citizens" that a reasonable degree of calmness and good sense in this matter will save them from a great deal of foolishness.

A Dramatic Scene.

Nothing presented to admiring audiences upon the mimic stage for years, if ever, has begun to equal in dramatic intensity the scene in the court room at the sentencing of William M. Tweed. The prisoner, pale and haggard with anxiety and sleeplessness, despairingly awaited his certain and swift-coming doom. He had no protest to make, no plea to offer why the penalty of the law should not be pronounced against him. He sat smitten and crushed beyond the benefit of talk or the indulgence of idle and irrational hope. His counsel lost their heads, and for once the cunning, insolent and sophistical tongue of John Graham could do no more for a client than to bunglingly beg for unmerited mercy. Amid a silence which was awful in its suggestiveness the boldest and most rapacious robber of the century descended to a felon's place.—There is a teaching in the picture beyond the truth that once in a while juries will accidentally agree; the instruction is that wickedness *never* really prospers. Fish is dead and Tweed is dead. The fact that the latter still breathes makes little difference; he is dead as an Egyptian mummy in the tombs of its fathers. Barnard is defunct, Cardozo is unhorsed, and in short, the dynasty of two or three years ago, omnipotent during its reign, is irretrievably broken and scattered. There is a power in law greater than law by which the wrong-doer is ultimately made his own prosecuting-attorney, jury and judge, and all concerned will do well to take it to heart.

Just the Thing.

We cannot do less than admire the foresight and patriotism of the New York Sun, which, having already discounted a war with Spain, goes on to tell us how to fortify our harbors. Torpedoes are the thing, says the great victim of the "attempted outrage"; just let us put plenty of torpedoes in the mouths of all our harbors, and there we are, all right. Then imagine a cruiser of that "effete monarchy" trying to come in. We should touch an electric button in the Sun office, or some other convenient place, and blow the cruiser higher than Donaldson's pet balloon. So the Dons will be the only ones to suffer after all, as we shall not go over to their place to put ourselves in danger of being blown up. The grand, culminating beauty of this little programme remains to be indicated. It is this: Inasmuch as Spain will be too busy in fighting her home enemies to find time to make and fetch over any torpedoes with which to guard Cuban harbors, our magnificent navy can possess the island without opposition. This, at least, is Dana's idea. We submit to a peace-loving public that nothing better for us has been suggested or is likely to be. We shall not fight Spain; we shall fix our glycerine infernal-machines and then notify the bloodthirsty barbarians to come and be blown up. The Sun intimates that the shells of the torpedoes should be of iron. Do any of Dana's relatives own a foundry?

CURRENT TOPICS.

—Reverdy Johnson is out on the Cuban affair and of course is for peace.

—The protest of those heavy New York capitalists seems to have settled the Industrial Exhibition business.

—Phil Sheridan telegraphs that he "feels the spirit rising in him" about this Cuban affair.

—The New York Times wants Judge Davis' address on sentencing Tweed inserted in the public school primers, that the children may learn a healthy abhorrence of rascality.

—A new species of political animal has been discovered. Cobb, the candidate for Mayor of Boston, is spoken of as "a modified Democrat with Republican tendencies."

—We should think it was time the English government put a stop to the silly Guy Fawkes celebrations, which are kept up with disgusting pertinacity, and sometimes serious results, year after year.

—The New York Herald lays this early winter and consequent close of the canals to the panic. At least that is all we can make out of it. But aren't we laying altogether too much to the panic?

—We are glad to learn of the Tribune's financial prosperity. It is a very common thing to see it announce that it has more advertisements than it can possibly publish; and it charges high prices, too.

—It is rather singular, in view of our recent amicable settlement with Great Britain, that nobody has thought until now of proposing arbitration in this Spanish business.

—Isn't it quite likely, now that Tweed has been convicted, that if the other Ring suits are continued there will be a great revelation of "Tweed-tarred" politicians throughout the state?

—Here is another sad case of fallen greatness. The Cardiff Giant, of whom probably all of our readers have heard and with whom many of them might have been acquainted, in his days of glory, has been sold for eight dollars, greenbacks! "What a fall was there, my countrymen!"

—The Philadelphia Age begins an article on "Spain and the United States" with: "Apart from the red-handed readiness with which the Spanish authorities butchered," &c. Whereupon the Buffalo Courier asks: "Why would not 'red-headed handiness' do as well?" The Courier has always been noted for ready rhetoric.

—The Cincinnati Commercial wants the American people to keep out of this muddle. Good enough advice, as a general thing, Brother Halstead. The American people ain't fond of a fuss; but when the dirty Spaniard begins to splash mud on them, and keeps right on splashing, why then the old Adam sort o' rises up and says, "By the everlasting jingo, boys, splash back!"—*Brooklyn Argus.*

NEWS OF THE DAY.

—Tweed is sixty-six years old.

—Japan has a ministerial crisis.

—The members of the French Cabinet have withdrawn their resignations.

—The Pacific Mail steamship Ariel was wrecked off the coast of Japan October 24th.

—President Lerdo has presented to the Mexican Congress a contract with the Mexican Company for the construction of an interoceanic railroad.

—A number of the printers on stike at Pittsburg have been arrested for conspiracy. Nearly all the offices are working with non-union men.

—The total strength of the Patrons of Husbandry in the United States, according to the report of the Secretary of the National Grange, is 8,262 granges, with a reported membership of 619,550.

—Gov. Parker of New Jersey is reported to have said that he could furnish 5,000 troops for the Cuban war in a very short time.

—The sale is announced by Osgood & Co. of the Atlantic Monthly to Hurd & Houghton, and of Our Young Folks to Scribner & Co.

—The change in the weather makes it probable that the ice-bound boats on the canals will be enabled to get through, thus saving thousands of dollars.

—The suit of Bierdermann & Co. against Daniel Drew and others, for $1,000,000, is expected to bring out important facts hitherto kept from the public.

—Two men endeavored to obtain admission to the monitor Dictator at New London, Friday night, and on being refused by the watchman they fired upon him and ran. The watchman returned the fire without effect.

—The inhabitants of north-western Iowa, particularly within the counties of Lyon and Osceola, have been suffering severely for lack of the actual necessities of life, caused by the utter failure of the grain crop there last summer. These sufferers are in need of everything in the way of food, fuel and clothing. Several women have died from want.

Steel Bars Instead of Bells.

Steel bars produce very pure, distinct and melodious sounds, and possess many advantages over church bells of moderate size. In Germany they are in some measures supplanting bells in church steeples, and an English publication, the Choir, advocates their general use, on the ground that while in point of sonorousness they are equal to the common bell, in certain other respects they are to be preferred to it. Thus, their weight will be light in comparison with the ponderous engines they are to replace. They will not burden the steeple so much, and consequently will give more scope for architectural design. Their winding and hanging up will not be so difficult, dangerous, and expensive. They are not liable to crack, as is the case with bells, and are therefore adapted for use in any climate. They can be operated by a simple mechanical contrivance.

The cost of these bars is so low that three or four of them, forming a peal, whose weight would not exceed one hundred pounds, could be manufactured in England for fifty or sixty dollars, whereas three bells of the same power would cost five times as much. They can be made of any dimension, weight, or power of sound. Every note or harmony can be produced more easily, and the tuning is obtained more precisely, than in cast bells. Of course these bars are also adapted for use wherever bells are now employed.—*Galaxy for December.*

A Chicago Barrel of Pork.

The Chicago provision trade, during the past summer season, caused the adoption of rules by the Board of Trade of that city, by which one hundred and ninety pounds of green meat, instead of one hundred and ninety-six pounds, were made the packing weight of a barrel of mess pork. The reason offered by the trade for the change was, to do away with the inducement to repack for the overweight of the meat in excess of 200 pounds. It is claimed that in the overhauling process the original pickle is usually thrown away, and a new brine substituted, which tends in a great measure to destroy the flavor of the meat, thereby injuring its quality and character. Also, that the benefits derived from the overhauling process do not go to either the packer or the consumer, but that both are injured by the tampering with the original package.

BELGIUM.

An American Ship Burned.

ANTWERP, Nov. 24.—The American ship Westmoreland, Captain Heron, which arrived here on October 29th from Philadelphia, was destroyed by fire to-day.

GERMANY.

An Unsatisfactory Explanation.

BERLIN, Nov. 24.—The explanations given by the French government in regard to the pastoral of the Bishop of Nancy ordering prayers for the recovery of Metz and Strassburgh are regarded as unsatisfactory.

A SEVERE MEASURE.

The bailiffs entered the residence of Archbishop Ledocbrowski last week, in accordance with the decree of court, and seized the furniture. The Archbishop maintains an attitude of resistance, although surprised at the severity of the measure.

ITALY.

A Triumph for Arbitration.

ROME, Nov. 24.—In the Chamber of Deputies to-day Signor Mancini made an eloquent speech in support of the principle of arbitration and praised the conduct of the United States and Great Britain in the settlement of the Alabama claims.

After the speech of Signor Mancini in the Chamber of Deputies to-day a resolution recommending the introduction of an arbitration clause in all future treaties with foreign powers was unanimously adopted.

THE ERIE CANAL.

Effect of the Change of Weather.

ALBANY, Nov. 24.—It rained steadily here all day and there is a prospect of getting the entire fleet of boats on the canal through. All on section No. 1 have reached the river.

THE NATIONAL CAPITAL.

Shutting Down on the Comanches.

WASHINGTON, Nov. 24.—The Commissioner of Indian Affairs to-day sent the following telegram to Hayworth, United States Indian Agent at Fort Sill, Indian Territory:

"Issue no more annuities to the Comanches. The demand for five raiders and murderers is not remitted, and if not complied with in ten days after the receipt of this dispatch you will stop their rations entirely and if they still refuse they will be handed over to the military. Assure the Indians that the government is in earnest and that arrangements are already being made to compel the Comanches to do right."

THE PANIC ENDED.

Resumption of the Harmony Mills.

TROY, N. Y., Nov. 24.—The Harmony Mills at Cohoes, employing nearly 5,000 persons, resumed work on full time to-day. Gilbert, Bush & Co., car manufacturers on Green Island, employing 300 men, resumed work on three-quarter time to-day.

RESUMPTION OF THE NEWBURGH MILLS.

NEWBURGH, Nov. 24.—Work was partially resumed this forenoon, after a suspension of several weeks, in the Newburgh steam mills in this city.

RESUMPTION AT WAPPINGERS FALLS.

POUGHKEEPSIE, Nov. 24.—The calico department of the print works at Wappingers Falls resumed work to-day, giving 250 men employment.

THE LATEST MUNICIPAL STEAL.

Investigating Pittsburg's Affairs.

PITTSBURG, Nov. 24.—A meeting of the Finance Committee of the City Council was called this afternoon to investigate the rumored irregularities in the finances of the city.—A sub-committee developed the fact that there has been an informal issue of water bonds, the Secretary of the commission having effected certain negotiations with the National Trust Company of this city, which suspended a few days ago, without the knowledge of the commission.

A letter from the City Attorney addressed to the chairman of the Finance Committee states that the facts thus far ascertained are as follows: Money proceeds of the bonds held on deposit at the National Trust Co., $223,000; bonds left with the bank for negotiation, water works, $254,000; bonds left with the bank for registration, Thirty-third street improvements, $50,000; less credit of $30,000. The water loans and street bonds have been, to the best of my information, hypothecated by a bank in Philadelphia as collateral security for the payment of the obligations of the bank. The $223,000 proceeds of the bonds sold should have been deposited in the city treasury, but it seems that it was placed in the National Trust Co. in the Secretary's own name. There is now $514,000 in bonds and money in this condition, but it is believed to be secured to the city, as the stockholders of this bank are individually liable.

THE INDIAN TERRITORY.

A Dastardly Outrage and Robbery.

PARSONS, Kansas, Nov. 24.—Walt Grayson, a Creek Indian, farmer and stock dealer living near here, was robbed Friday night of over $3,000, mostly in gold and silver, by a party of three white men. One of the robbers had been at Grayson's house for two or three days under pretence of buying horses. His confederates arrived on Friday evening well mounted and heavily armed, and Grayson was immediately seized and a demand made for the money. He refused to deliver it, whereupon he was hung to a tree until nearly insensible. He still refused to give up his money and the hanging was repeated six or seven times, and not until the robbers threatened to hang his wife did he reveal the place of its concealment. Grayson lies in a precarious condition. $1,500 reward is offered for the arrest of the robbers.

A DESPERATE STATE OF THINGS.

Since the withdrawal of the United States Marshals from the Indian Territory the number of murders are largely on the increase. The agents of various tribes say that it is absolutely necessary that Congress should interfere and give the civilized Indians a government that will protect life and property. The assassinations in the territory averaged twenty per month during the past month, and there has not been one execution under Indian laws. The Creek council adjourned without doing anything excepting to pass a law forbidding any Indian to rent to or permit any white person to occupy any building on the territory of the Creek nation. They refused to allow white railroad employees and others to build a house for school and church purposes at Muskage.

MORE TROUBLE FOR SPAIN.

A Couple of German Vessels Captured by the Spaniards.

SAN FRANCISCO, Nov. 24.—The steamer Great Republic brings the following intelligence from China:

The steamer Zeipka brought to Hong Kong news of the seizure of the German vessels Maria Louise and Gazelle by a Spanish man-of-war off Sooloo. The vessels were brought to Manilla. The crew of the Gazelle were liberated. The Captain and super-cargo of the Maria Louise managed to escape and the Spaniards declare that they will be treated as spies if caught outside the respective consulates. The super-cargo claims the protection of the British consul and the Captain that of Germany. The latter states that the vessels were sixteen miles off Sooloo when captured and that according to law a blockade extends only nine miles, and further that the Spanish authorities had not declared any blockade.

OUR SPANISH RELATIONS.

NAVAL PREPARATIONS STILL GOING ON.

FRIENDLY TONE OF SPANISH OFFICIALS.

Work at the Navy-yards.

NEW YORK, Nov. 24.—Work at the Brooklyn navy-yard is very brisk, men being paid double wages. The Colorado will be the first vessel off, and she will be ready by Saturday, or on Monday at the farthest. The Dictator will be the next in order to leave the yard. Not much is to be done to her and double gangs are at work.

PHILADELPHIA, Nov. 24.—Thirteen hundred men are now employed at the navy-yard. The monitor Ajax was taken off the dry dock yesterday and the Terror takes her place today. The monitors Nantasket and Jason have been sent to private yards for repairs. It is reported that all the monitors at League Island will be put in order at once.

A DENIAL FROM MINISTER SICKLES.

LONDON, Nov. 24.—The agent of the Associated Press here is authorized by Minister Sickles to say that there is no foundation for the report published in New York on the 21st to the effect that he (Sickles) had broken off social relations with the Foreign Minister and that he expressed the opinion that war is inevitable. The agent is authorized to state that there is no foundation whatever for the dispatch; that official and personal relations between Minister Sickles and the Spanish officials are unchanged and that Minister Sickles has not expressed any opinion as to the result of the pending question.

ARRIVAL OF BRITISH VESSELS AT SANTIAGO.

HAVANA, Nov. 24.—The British gunboat Wood Lark arrived at Santiago de Cuba on the 18th and on the following day the ship-of-war Danac, with Commodore de Horsey, senior officer at Jamaica, arrived from Port Royal. General Burriel embarked on the steamer Trinidad for Havana before Commodore de Horsey came ashore.

A JUST CAUSE OF COMPLAINT.

LONDON, Nov. 24.—The Spanish press complain that the enemies of Spain telegraph false news to the United States.

RESOLUTIONS BY THE REPUBLICAN CENTRAL COMMITTEE.

NEW YORK, Nov. 24.—The Republican Central Committee met last evening, Hugh Jordan presiding. The Committee on Resolutions presented the following, which were unanimously adopted:

WHEREAS, The seizure of the steamer Virginius upon the high seas while sailing under the protection of the American flag and the inhuman barbarity inflicted upon her unresisting crew has aroused a feeling of universal indignation among the people; and

WHEREAS, The Republican Central Committtee, in common with other citizens, feel called upon to express its abhorrence of such atrocities; therefore, be it

Resolved, That the recent acts of outrage upon a vessel carrying our national flag and the brutal and summary execution of the persons seized on board the Virginius demands speedy redress and such indemnity for the future as will prevent the repetition of such acts.

Resolved, That we extend our deepest sympathy to all people struggling for freedom and redress from the power of tyranny and despotism.

Resolved, That if the people of Spain are sincerely desirous of establishing a republican form of government their first act marking the consistency and justice of their professions will be the release from subjection of any portion of their territory; to give liberty to the slaves, and to the people of Cuba a government of their own choice.

Resolved, That we rely with entire confidence upon the wisdom and patriotism of the administration and war-making power of the country to take such action as may be necessary to vindicate the honor of the nation consistent with the obligations of government and the best interest sof the whole people.

A resolution was also adopted that copies of these resolutions should be forwarded to President Grant and the members of the Cabinet.

NOTHING NEW FROM SPAIN.

WASHINGTON, Nov. 24.—There is nothing really new to-day in regard to Spanish affairs except an intimation merely, through British sources, of the probability of Marshal Serrano being declared military dictator.

THE BOSS MURDERER WILLING TO OBEY.

MADRID, Nov. 24.—President Castelar has received a dispatch from Captain General Jouvellar assuring the home government that the authority of the republic will obeyed be in the island of Cuba.

COMMENTS OF THE ENGLISH PRESS.

LONDON, Nov. 24.—The Daily Telegraph compares the Virginius with the Trent affair. Although it fears that the rumored ultimatum of the American government would be fatal to peace, still it thinks President Castelar, in view of the internal troubles of Spain, could honorably follow the example of President Lincoln and grant the demands of the United States.

METROPOLITAN NEWS.

The Case of Tweed's Counsel.

NEW YORK, Nov. 24—12 M.—Tweed's counsel appeared in the Court of Oyer and Terminer this morning, in response to Judge Davis' summons. The latter, looking sternly at them and calling them by name, said he was ready to hear either of them. Fullerton said he wished to understand what the order of the proceedings would be. Judge Davis replied that the counsel should know, and proceeded to state the nature of the papers passed up to the Court at the beginning of the trial.—Fullerton denied any intention of disrespect towards Judge Davis, which disclaimer Judge Davis accepted.

The document referred to claimed that Judge Davis had expressed an opinion in the case and that he was biased in the case and consequently should not preside.

TWEED IN STOKES' QUARTERS.

Late this afternoon Tweed was removed to the parlor in the Tombs recently occupied by Stokes as a sitting-room.

Counsel in the Tweed case will present a bill comprising nine objections on which to base arguments for a stay of proceedings.—The prosecuting officer may ask time to consider the bill of exceptions and Judge Davis may possibly take some time to consider the points presented. It is reported that in the meantime Tweed will not be placed on Blackwell's Island.

THE UNION TRUST COMPANY.

The meeting of the Union Trust Company to-day reached no final decision on resumption of business, but a director states that the company expects to resume Monday next.

A STARTLING EXPOSE PROMISED.

It is stated that detectives will make arrests of the parties who lately floated half a million dollars' worth of forged United States bonds and securities. Facts of a startling nature are promised.

PROVIDING WORK FOR LABORERS.

The Commissioners of Docks to-day promised the volunteer legislative committee on employment that they would give work to all the men that could be made available this winter.

THE BOILER EXPLOSION.

NEW YORK, Nov. 24.—The investigation into the cause of the Harlem boiler explosion was resumed to-day. Several portions of the boiler, including the roof, weighing 1,400 pounds, was placed in the inquisition room for the inspection of the jury and counsel. William Johnson, the engineer, testified that the boiler had a flaw or leak.

HARRY GENET'S CASE.

The charges on which Harry Genet was arrested to-day were of grand larceny in connection with the Harlem court frauds investigation by the State Senate last year.

DEVELOPMENTS OF THE BROOKLYN INVESTIGATION.

An investigation in Brooklyn shows that $300,000 has been paid for work on the penitentiary worth $100,000, including nearly $13,000 for a barn, all of which was unauthorized.

PROMINENT POLITICIANS TO BE ARRESTED.

Commissioner Davenport, it is reported, will issue warrants for the arrest of prominent politicians, charged with fraud at the last election.

BROOKLYN'S POOR.

The Charity Commissioners of Brooklyn state that they cannot meet a quarter of the demands for assistance made on them by the poor.

A MYSTERIOUS DISAPPEARANCE.

Captain Schroot and his little daughter are missing. He was a German sea captain and had a large amount of money with him last Friday, since which time he has not been seen, having left his wife in Boston while he purchased some newspapers.

PRECAUTIONARY MEASURES.

The recent escapes from the Tombs led the Commissioners of Correction to-day to adopt a rule admitting no visitors without a pass from one of the Board of Commissioners.

INGERSOLL'S PARTNER ARRESTED.

It is understood that Farrington, Ingersoll's Ring partner, who was arrested on Saturday, will be tried alone. It is reported that other Ring arrests will be made to-morrow.

REPORT OF THE COMPTROLLER OF THE CURRENCY.

His Suggestions Regarding the National Banking System.

WASHINGTON, Nov. 24.—The report of the Comptroller of the Currency contains an exhaustive rehearsal of the system of free banking up to the time of the establishment of the national banking system, and says:

The amount of national bank notes now authorized to be issued is $354,000,000 and the amount of legal tender notes $356,000,000, so that the proportion of legal tender money, in which national bank notes are now redeemable, is nearly identical, though slightly in excess. If the national banking law were amended so as to require redemption of national bank notes in legal tender notes at one-quarter of one per cent. discount, as in the New York state law, instead of at par, as provided in the national currency act, and the national banks of the whole country would agree to such a provision of law, a prompt redemption of the national bank notes would be insured; but the redemption of that vast amount of circulating notes, if redeemed but once a year, would result in great loss to the people of the United States. A system of redemption of this kind would also at once increase the rate of exchange from the rate of one-tenth of one per cent., now existing at most periods of the year between the different cities of the Union, to from one-half per cent. to one per cent., thus restoring, to a considerable degree, the condition of the exchange at the time of the inauguration of the national banking system and insuring a loss to the people annually of millions of dollars. Such a system would, however undoubtedly result in the return of the notes of national banks at certain seasons of the year when they were not needed to the vaults of country banks, to be paid out when the demand for currency increased.—Such a system would also give what is exceedingly desirable at the present time—elasticity to the currency.

In order to insure the prompt redemption of national bank notes the amount issued must be so much increased that the notes will be, say at ½ of 1 per cent. discount, and this would probably not be accomplished until an addition was made to the present circulation of $461,000,000. The same result would follow from a reduction of the volume of legal tender notes simultaneously with an increase of the issue of bank notes; but Congress has frequently refused to diminish the amount of legal tender notes; so the Comptroller is of the opinion that any general system of free banking, accompanied with redemption, must be postponed until the resumption of specie payments.

The Comptroller, in order to avoid any misapprehension of his views upon this subject, desires to state that he is not an advocate of any permanent system of currency usually known as irredeemable currency. He believes, however, that the people of this country ought not and will not submit to the high rates of exchange prevailing previous to the war, and that an amendment to the national currency act which shall result in restoring high rates of exchange will also result in the downfall of the system of banking, which it is believed will yet become the most satisfactory of any system ever established.

The report concludes as follows:

"It is to be hoped that previous to the return to specie payments some system will be adopted which will give abundant elasticity to the currency without incurring the expense and burden of general redemption and without loss resulting from the high rates of exchange which have always prevailed under such a system."

A MISSING VESSEL.

Apprehensions of Her Loss.

HALIFAX, Nov. 24.—Grave apprehensions are felt here for the safety of her Majesty's ship Sirius, now thirty-six days out from Halifax for England. She had a crew of nearly 300 men. When leaving port the Captain expressed confidence in making the passage in a fortnight.

THE WEATHER.

To-Day's Probabilities.

For the Middle States and New England northwesterly winds, cloudy weather and occasionally snow and rain in the latter, temporarily clearing in both sections by Tuesday forenoon.

STOCK and MONEY MARKET.

NEW YORK, Nov. 24.

Money more stringent during the afternoon and loaned as high as 1-16 per diem, but finally closed at 7 per cent. Sterling steady at 7@7¾ for 60 days and 8¼@9¾ for sight. Customs receipts $229,000. Gold declined in the morning from 10 to 9¾, owing to the more peaceful aspect of affairs; during the afternoon the market was firmer, closing at 9¾. Early in the day as high as 3-64 was paid for carrying, but at the close loans were made flat. The Assistant Treasurer disbursed $380,000. Clearings $45,000,000. Governments quiet and steady. State bonds nominal. Stocks opened strong and advanced ½ to 2⅜ per cent. by mid-day; the market then weakened, with a general reaction of ¼ to 1⅜ per cent. There was some recovery from this decline, however, in the late dealings and the market closed steady. The dealings were most active in the usually prominent stocks. Panama sold at 80 @83 on small transactions, and Pacific Mail was a leading feature in the early dealings, advancing from 28¾ to 31¾. Gold closed at 9¾. Money 7. Governments strong, State bonds quiet, Stocks strong and active.

THE SUN.

Weekly, Semi-Weekly and Daily.

THE WEEKLY SUN is too widely known to require any extended recommendation; but the reasons which have already given it fifty thousand subscribers, and which will, we hope, gave it many thousands more, are briefly as follows:

It is a first-rate newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always presented in a clear, intelligible, and interesting manner.

It is a first-rate family paper, full of entertaining and instructive reading of every kind, but containing nothing that can offend the most delicate and scrupulous taste.

It is a first rate story paper. The best tales and romances of current literature are carefully selected and legibly printed in its pages.

It is a first-rate agricultural paper. The most fresh and instructive articles on agricultural topics regularly appear in this department.

It is an independent political paper, belonging to no party and wearing no collar. It fights for principle, and for the election of the best men to office. It especially devotes its energies to the exposure of the great corruptions that now weaken and disgrace our country, and threaten to undermine republican institutions altogether. It has no fear of knaves, and asks no favors from their supporters.

It reports the fashions for the ladies and the markets for the men, especially the cattle-markets, to which it pays particular attention.

Finally, it is the cheapest paper published. One dollar a year will secure it for any subscriber. It is not necessary to get up a club in order to have THE WEEKLY SUN at this rate. Any one who sends a single dollar will get the paper for a year.

We have no travelling agents.

THE WEEKLY SUN.—Eight pages, fifty-six columns. Only $1.00 a year. No discounts from this rate.

THE SEMI-WEEKLY SUN.—Same size as the Daily Sun. $2.00 a year. A discount of 20 per cent. to clubs of 10 or over.

THE DAILY SUN.—A large four-page newspaper of twenty-eight columns. Daily circulation over 120,000. All the news for 2 cents. Subscription price 50 cents a month, or $6,00 a year. To clubs of 10 or over, a discount of 20 per cent.

THE COUNTRY GENTLEMAN.

VOLUME FOR 1874.

THE CULTIVATOR AND COUNTRY GENTLEMEN, for the past forty years, has ranked, both in this country and abroad, as the Standard Journal of American Agriculture. The Editors and Proprietors, in addition to their own personal labors, are regularly assisted by a very large number of Special Correspondents and Regular Contributors, among whom are included many Leading Agriculturists, in all parts of the country, east and west—and by over *Five Hundred Occasional and Voluntary Writers,* directly in the ranks of the best Farmers and Horticulturists of nearly every state in the Union. With the co-operation of so large a corps of practical men, this journal is intended to possess exceptional value as the chosen *Medium of Intercommunication* among all classes interested in the Products and Fertility of the land—those who cultivate and those who consume—the buyer and shipper, as well as the first owner of the crop—breeders of improved animals and their customers—manufacturers of improved machinery and those who purchase and employ it—nurserymen and fruit raisers—and, especially, to supply fuller and better data as to the progress, prospects and returns of each successive season, as throwing light upon one of the most important of all questions—*When to Buy and when to Sell.*

TERMS—THE COUNTRY GENTLEMAN is published weekly, on the following terms, when paid strictly in advance:—One copy, one year, $2.50; Four copies, $10, and an additional copy for the year free to the sender of the club; Ten copies, $20, and an additional copy for the year free to the sender of the club.

LOCAL INTELLIGENCE.

CITY NOTES.

—High water at Rondout Light House to-day at 6:30 P. M. and 6 A. M.

—Yesterday 27 canal boats laden with 3,445 tons of coal reached tide water at Eddyville through the Delaware & Hudson canal.

—Monday was an uncomfortable day under foot and over head, but it cheered canal boatmen, as it gave promise of keeping the canal free of ice for a while.

—The scoop and snow shovel brigade were on duty at an early hour on Monday morning in nearly all parts of the city. It is unusual to be mustered into the service twice so early in the season.

—On Monday afternoon a native of "the greenest isle of the sea" who was in a very low state, superinduced by second mate's nips of whiskey, composed himself for a snooze in the door of the iron department of Crosby & Co.'s store on Garden street, and from which for a while he utterly refused, with many profane adjectives, to remove his corpus in spite of the blandishments of the polite employees. When the disciple of Bacchus was finally got outside he calmly seated himself on the doorstep, when he entered upon the study of the various styles of architecture in Garden street, his outside clay the meanwhile becoming as moist from the rain as his inside clay was from his potations.

Boat Building.

Messrs. J. & J. McCausland, the enterprising Burgess Hook boat builders, have made a contract for building two large boats for the coal trade.

Retrenching.

The N. Y., K. & S. R. R. Directors are retrenching. The salaries of the Manager, Mr. Wm. B. Litchfield, and other officers have been cut down considerable.

Call Accepted.

Rev. M. F. Liebenau has accepted the call to become pastor of the Bloomingdale Reformed Church, near Eddyville, for one year.

Canal Navigation.

Mr. Vandling informs us that since the weather has changed less difficulty is experienced in getting boats through the Delaware & Hudson Canal, and a few days of the present temperature will see all the loaded boats locked through at Eddyville.

On the River.

Sunday night on the river, owing to the snow storm and fog, was excessively dark and many vessels were forced to come to, among them the Albany tow boats and the George A. Hoyt of Cornell's line. The latter vessel, with her tow, laid at Clearwater's dock until Monday morning, when she resumed her passage for this city.

Tickets Ready.

The tickets for the Rondout Lecture Association course of lectures are now ready and should command a rapid sale, as this is one of the best courses of lectures we have ever had. There is not one of the entertainments but is first-class. By purchasing one of these tickets a person will obtain a very large $3 worth

Canal Item.

The Scranton City Journal of last week says: "The Del. & Hud. Canal has closed for the winter. We understand that the gravity road will be kept open and about 4,000 tons per week run over it for the Jefferson road at Honesdale. The men will be employed half time—that is, one set working one week and another set the next. The wages, we learn, are not reduced."

Runaway.

Late on Saturday a team of horses belonging to a man named Beaver ran away up Division street into Abeel, where they collided with another team, whereby one of Mr. Beaver's horses was very severely cut on the body and the contents of his sleigh thrown into the road. The other man's team was not injured, but the manner in which that *hombre* slung double-jointed oaths around was a caution.

Seventy-One Years of Wedded Life.

A remarkable instance of longevity is found in the case of Mr. and Mrs. Joseph Adams, formerly of Durham, but now residents of the town of Cairo, Greene county. Mr. Adams is ninety-two years of age and his wife ninety-four. They had been seventy-one years married in June last, and still perform all their household work with the exception of the washing.

Scandalous.

According to the Kerhonkson correspondent of the Ellenville Press that village (Kerhonkson) must be the very breeding-place of social scandals. He can enumerate nearly one hundred separate and special lies going about in that neighborhood at the present time. Can "Why Not" tell us whether any clacking woman or women are the prolific mothers of such infernal small talk; and if so, why the many decent citizens of Kerhonkson do not put those women under the town pump?

The Connecticut.

The steamboat Connecticut, of Schuyler's Towing Line of Albany, landed at Rhinecliff on Monday, with the barge George English of Albany in tow, bound for Albany. We were shown aboard by her Captain, Harvey W. Temple, and first pilot, Sherman Freer. The Connecticut is a model of neatness and convenience, having on board a pair of capstans which work by steam for pulling in hawsers. These capstans will pull in two hawsers in just half the time it would take seven men to pull one in by hand. Part of her state rooms were left in when she was fitted for towing, and are fitted up in the most gorgeous style, also having been enlarged. Each room contains a full set of black walnut furniture, besides a stove (gas-burner), spring beds with hair mattrasses, &c. The crew all have rooms above deck, and are not required to sleep below. The dining room is below and is fitted up in as fine style and taste as the rooms above. She was fitted up by Mr. Schuyler and was made just as convenient as possible. Her lower bits on the main deck are fine specimens of mechanical art. They were made by a young man, John Lawler, of Albany, scarcely twenty years of age. The dimensions were given him and when they were finished not a shaving had to be cut off to make them fit nicely. They are made of oak and covered with brass plating.

The Connecticut has made more trips from Albany this season than any other boat on the river, besides having larger tows, she having made one hundred and two trips. She is now called the best and fastest tow-boat on the river. The Connecticut is owned by Mr. Schuyler of Albany, one of the largest tow-boat owners on the Hudson. Her crew are composed of Captain Harvey W. Temple; first Pilot Sherman Freer of Milton, well-known in ice boating, having built one of the fastest ice boats on the river; Second Pilot ...m. Walker; Chief Engineer Charles Barrett; Second Engineer George Spoore. She also carries four firemen, five deck hands, a cook and chambermaid.

BOARD OF SUPERVISORS.

Annual Session.

JOHN D. WINFIELD, Chairman.

MONDAY, Nov. 24—7 P. M.

Board met. Quorum present.

Minutes of meetings on Friday read and approved.

Mr. Myer moved that if the parties concerned in the appeal from the action of the Auditors of the town of Kingston be present, that they now be heard. Carried.

Mr. Hiram Humphrey appeared, and said when the bills were audited before the town board no member of the board was allowed to be present during the examination or auditing of his bill; that this appeal was caused by some feeling between members of the board that had come up since the bills were audited; that he cared nothing about the amount in dollars and cents, but it reflected on his honesty. He considered himself an honest man and would like to have the whole Board act on the matter.

Referred back to the Committee on County Accounts.

Mr. Stone moved that Grove Webster's name be added to the assessment roll of the city of Kingston, it having been accidentally dropped in copying the roll. Carried.

Mr. Bruyn presented a petition from James Diamond, who claimed to be a member of the state militia, and was erroneously taxed. Referred to the city Supervisors.

The County Clerk reported that he had received no money for fines since his last report. Received and placed on file.

The reports of the following Justices of the Peace were received and placed on file: Daniel Coe, Luther Wilklow, C. W. Elting, A. C. Hasbrouck, Lloyd; John Constable, Plattekill; Dewitt C. Davis, S. K. Roosa, Olive.

Mr. Gillett offered the following:

WHEREAS, There is a possibility of effecting a settlement with Cooper and Schoonmaker as regards their claims for legal fees against the County of Ulster, and also of effecting a settlement of the John C. Brodhead matter; therefore,

Resolved, That this Board take no action upon the matter in either case until this Board shall have gone into secret session and deliberated among themselves as a body what the best course is to pursue; therefore,

Resolved, That immediately upon the adjournment of the Board of Supervisors this evening, they meet in secret session at the same place to take into consideration the best means of trying to effect a settlement of our county litigation.

Carried.

Mr. Misner presented a bill from the Railroad Commissioners of the town of Shandaken. Referred to Committee on County Accounts.

On motion of Mr. Bruyn the Board adjourned until Tuesday at 2 o'clock P. M.

The Board, in accordance with Mr. Gillett's resolution, went into secret session.

Remember the Poor.

The middle of May witnessed snow, and likewise did the middle of November. Five months without snow and frost are all that intervened, and yet the vegetable world yielded abundantly. Fruits, and nearly all kinds of grain and vegetables, are plenty and quite reasonable in price. Pork and beef are also abundant and cheap, and yet with work scarce and wages low many a poor family will quake with fear at the commencement of a long and dreary winter. It is the broadest charity in times like these for those who are blessed with a store of this world's goods to remember the poor and help them to help themselves.

Factory Enlarged.

The Matteawan Manufacturing Co., who make felt hats exclusively, are taking advantage of the dull times to erect a considerable addition to their already extensive works, by which they are enabled to keep a number of their employees at work, who would otherwise be thrown out of a job. The addition consists of a wing attached to the northwest part of the main building, to be used as a dye house and drying room. The dye house is 34 by 50 feet, and 42 feet from floor to apex of roof. The dry room is a continuation of the dye house, from which it is separated by a wall partition, and is to be divided into two stories. In size it is 27 by 18 feet. The entire building is of brick, except the roof and some solid masonry adjoining the creek. The expense of its erection will be about $4,500. The erection of it is under the general superintendence of Mr. Silas Terwilliger, carpenter for the company. The mason work was done by Mr. Schuyler Tilman.

On to Cuba!

There was once a soldier company, told of in story, the first of whose by-laws ran thus: "In case of war this company will immediately disband." One of the companies connected with the Tenth Regiment, N. Y. S. N. G., is composed of "stuff" that is "sterner" than the metal which entered into the composition of this company with the life-assuring by-law. Said company of the Tenth Regiment held a meeting last evening, at which the proposition was made that their services should be tendered to the United States government for active service against Cuba. The gore-loving soldier who made this suggestion was greeted with the utmost enthusiasm by his comrades, and after the applause which greeted his proposition had let up a little, he said that he thought it would be well if some member of the company would offer a resolution covering the ground on which he had touched. "I, myself," he added, "must be excused from offering said resolution, for the hat business is uncommonly good just at present, and I could not possibly get away."

Up to the hour of going to press to-day the resolution had not been considered by the company, because it had not been seconded.—Also because it had not been moved.—*Albany Journal.*

Denied the Soft Impeachment.

Some of the facetious chaps in upper Kingston having nothing better to amuse themselves with a day or two since went 'round that portion of this municipality informing all the bummers, near-do-wells and beats that the government had called for "a hundred thousand men or more" for service against Cuba, and that each accepted recruit would immediately receive one thousand dollars in greenbacks; and furthermore that a chap who, a few years since, was in danger of becoming chronic town clerk of Kingston was the recruiting officer. The report had the effect of causing all the above-mentioned impecunious loafers to besiege the reputed recruiting-officer to enlist them and pass over the thousand dingbats, but that high-toned gentleman waxed exceedingly wroth, and striking an imposing attitude he desired to know of the would-be recruits who surrounded him, and who, in point of dress and facial expression would have put Sir John Falstaff's cohorts to the blush, "Great Cæsar! have I lived all my life in this place to so little purpose that I am suspected of having fallen so low as to become a recruiting officer? Clear out, you scallawags; I'm *not* a warrior. Let us have peace!" "Fallen so low as to have become a recruiting officer" is good.

Election of Officers.

At a regular meeting of Mountain Pride Lodge, No. 878, I. O. of G. T., held at Phoenicia on Saturday evening, Nov. 8th, 1873, the following officers were installed for the ensuing quarter: Miss Maria Longyear, W. C. T.; Miss Myra L. Fiero, W. V. T.; W. H. Byington, W. Sec.; Edgar R. Nicklas, W. F. S.; Charles Myers, W. T.; Martin Bell, W. Chaplain; Charles Zimmerman, W. M.; James Kinkade, P. W. C. T.; Miss Mary Smith, W. D. M.; Miss Addie Vandemark, W. A. S.; Andrew Delamater, W. R. H. S.; Charles Byington, W. L. H. S.

ALONG THE RIVER.

—The Methodists of Troy are expecting a visit from Bishop Peck next week.

—The Veteran Volunteers of Poughkeepsie have tendered their services in case of need on account of the Spanish difficulties.

—Thomas Winn, suspected of committing a series of burglaries at Saratoga, was arrested in Troy on Saturday.

—Fogs on the river are very prevalent now-a-days, and steamers are frequently greatly detained thereby.

—Rev. Edwin Holmes, a well-known minister of the Reformed Church, died in Hudson, on Sunday morning, after a brief illness.

—The rates of towing by the Albany boats were increased on Saturday. The charges now are five dollars for northern and ten dollars for western boats.

—The schooner Dutchess, loaded with stone, which sunk in Haverstraw Bay, during the last heavy storm, was owned by Mr. Ira Cooper of Athens. She will undoubtedly be raised and put in repair.

—The third ward school at West Troy and five piles of lumber, the latter belonging to Smith, Craig & Co., were burned on Friday morning. Loss $5,400; insured for $6,100.

—The canal between Albany and Troy was closed on Saturday by ice. Ice was so heavy on the little basin that persons were walking on it. Thirteen boats that left Albany for the west have been stopped by the ice at Port Schuyler. There are but few boats in the little basin for the winter.

—At a meeting of the line officers of the Twenty-fourth regiment, held at the state armory last Thursday evening, the colonel commanding was instructed to tender the services of the regiment to Gov. Dix, and by him to the President of the United States, for service, if required, to aid in settling the Cuban difficulty.—*Troy Whig.*

—It is reported that the Grand Jury, now in session at Peekskill, has failed to indict John Butch of Schenectady, charged with causing the death of Emma Lidtner, who was found dead in her room at Wright's Hotel in Peekskill some time since.

— J. O. Whitehouse's shoe factory in Poughkeepsie was closed for repairs on Saturday evening. The work of repairing machinery, etc., will be completed in about ten days' time, when the factory will be re-opened with a full force, and run on full time as usual.

—A florist of Hudson, N. Y., has produced a pure variegated rose, which he named for his daughter, "Cora Macy rose." The form and fragrance of the parent rose are fully preserved, while the leaves are all variegated in red and white, blending in the most perfect manner.

—The "tight" times affect Coxsackie as well as other places. The ice house men have been cut down to $1.50, nine hours' time; Richardson's foundry is running on eight hour time, and the Malleable Iron Company has started on three-quarter time.

—Forty thousand barrels of apples have been shipped this fall at Schenectady, via the Rensselaer & Saratoga Railroad, passing through Saratoga en route to Boston. Six thousand barrels more lie at Schenectady, awaiting shipment. The immense consignment is made by one party who bought them in the western part of the state. The apples are brought to Schenectady by the Erie canal. The buyer has still six canal boat loads on the way to Schenectady.

What a City!

For four days and nights after the storm of last Monday night Flatbush avenue was allowed to remain blocked with snow six feet deep, impassable for man or beast, and left without any danger signal to a person after nightfall. With wife and child, on Friday evening last, I attempted to reach upper Kingston with a sleigh by the usual route, not dreaming of any obstruction in the roads so many days after the storm, but upon reaching St. Mary's cemetery we suddenly found ourselves floundering in the snow, which was piled fence-high, with no sign of any road. Leaving the establishment buried in the drift I fought my way through dark and snow as best I could to the nearest house, where I found Mr. Tietjen, who, with his boy, light and shovel, promptly came to our relief, when after a most pitiless wade we finally reached Kingston at a late hour, where we were compelled to remain for the night.

Now I would like to inquire whether the inexperienced Fathers of this infantile city of Kingston propose to make any attempt to keep its streets open during the winter which is somewhat likely to ensue? As the matter is of some little importance to the general public, I would suggest that this august body discuss the question briefly at its next meeting. I don't know just whose particular business it was to clear this avenue, nor can I find anyone who does; but it being a very troublesome thoroughfare in winter, when the snow falleth where the wind willeth not to let it remain, I think it would be advisable to include it in some person's especial beat who could manage to get around either with a few shovels, or the necessary stamps to place them on duty, at least forty-eight hours after every snow-storm if necessary. Mr. Tietjen told me he had offered to clear the road for $3, but the authorities, whoever they were, seemed to have advertised for sealed proposals for the work, as they thought this too much to pay.

My individual experience was only one among a score of others perhaps, as Mr. Tietjen informed me several had broken their sleighs in this drift, and they would undoubtedly join me in grateful thanks for his timely assistance. To say I should have left this road soon after passing the Alms-House, and thus avoided the blockade by taking a new street scarcely passable as yet, might have been well enough in daylight if the case had been understood. Gentlemen, it was your business as officers of a civilized commonwealth to have had this frequented street opened a few hours after the storm; and if I had met with serious accident on the occasion alluded to I should most assuredly have recovered damages from the city. It is probable that if the Tribune correspondent who so recently furnished for its columns such a glowing account of your enterprise and thrift in various ways, had got into that snowbank within a few chains of your City Hall he would have devoted a paragraph or two to that branch of your industry. A noted up-town physician tells me he too "kerwolloped" into that bank of the fleecy frosticles, could not reach his patients, and had to waste a good deal of pious perspiration to get out. Now if my friend the Mayor or any member of the Common Council wish further particulars of this affair they can call on me at my residence in Flatbush, when I will cheerfully impart what I know about that snow-drift. Give us a Flatbush avenue committee at once. Here's a fresh "Ulster County Horror!" for the Po'keepsie papers.

H. HENDRICKS.

Railroad Matters.

This week seems to be a particular busy one with railroad people. The Sheriff's postponed sale of cars and other stuff belonging to the N. Y., K. & S. R. R. is set down for the 26th, and anybody short of a house to live in this winter can select a car and have a jolly good time.

A suit has been commenced by Thomas Cornell and S. D. Coykendall for rent from the same railroad and a petition to appoint a receiver made by them. This suit is before Judge Learned, and the papers were served by the Sheriff on Saturday. The motion will be argued, we understand, on Saturday next. Caylis & Co., the German firm upon whose judgment of $79,000 the Sheriff levied upon the cars, locomotives, &c., have commenced a suit to throw the road into bankruptcy and petitioned for the appointment of an assignee. In the meanwhile the Spuyten Duyvil Iron Co. is up to something, but what we haven't heard.

All this indicates that this will be a busy week in this railroad, and the upshot is difficult to guess. The Directors however are serene, and one of them informs us that the road will not suffer anything from these proceedings.

In the Wallkill Valley Railway Company matters are about as much mixed as in the other. Vice President Sahler informed us on Monday that Treasurer Ostrander was hard at work upon the expected report upon the condition, past history and present prospects of that road. Up to a late hour last night, however, it had not reached this office; if received before going to press it will be found in another column.

A meeting of the Directors of this railroad was held at the Grand Central Hotel on Friday, at which it was resolved to fight the foreclosure suit of the second mortgage bondholders to the bitter end, and for that purpose it was resolved to employ extra counsel. Mr. Samuel Hand, who has had a hand in considerable of the railroad litigation, is to be employed, with others not yet named. It was also resolved to call a meeting of the stockholders and town commissioners to be held at the Eagle Hotel on the 3d day of December, at which the situation is to be fully considered and such action taken as the condition of affairs will permit.

A Handsome Headlight.

Mr. A. Sahler, Vice President of the Wallkill Valley Railway, exhibited down town on Monday as handsome a collection of stuffed birds upon branches as we have seen in a long while. They were nicely enclosed in a swell glass case. We got the impression from Mr. Sahler's remarks that he intended mounting each of the Wallkill Valley locomotives with one of these fine ornaments, which will be very attractive to the people along the route.

Put a Stop to It.

We haven't the slightest objection to youngsters riding down hill, for it isn't so long ago that we enjoyed that kind of sport—do yet sometimes—but we *do* object to the urchins using some of the most frequented streets in the lower portion of the city for coasting places. Many an unlucky wight has come near losing his legs, if not his life, by getting in the way of the swift-running sled of some irrepressible hoodlum who comes rushing down a sidewalk with the speed of a shot from a gun, and yells "o-u-t th' r-o-a-d!" when his sleigh is only about five feet from your shins. There are hills enough all around the city where neither vehicles nor pedestrians have occasion to go, and to such places the youngsters should be made to betake themselves when they want to ride down hill. Children will ride on the sidewalks so long as there is snow on them in spite of any number of policemen, so enforce the ordinance in regard to clearing snow from walks and that will make pedestrianism safe and comfortable.

OUR FREE PARLIAMENT.

Who is to be Mayor Next Spring?

MR. EDITOR:—In selecting the Mayor of the City of Kingston for next spring, when the present incumbent's term of office expires, we ought now to turn our attention to the filling of that office without respect to party. The present Mayor, Mr. Lindsley, is an able and worthy man who has thus far been true to the interests of our whole city and is eligible for our support. Also, Hon. A. Schoonmaker, Hon. Thomas Cornell, Mr. M. J. Madden, W. F. Romer, Alexander W. Shufeldt and others.

CRANE'S

LYCEUM ENTERTAINMENTS.

—14th YEAR.—

MR. H. M. CRANE

Has the honor to announce the following series of entertainments for the regular season of 1873-4. It has been the aim of the manager to maintain the PRESTIGE which this Lyceum has obtained, and he confidently assures the people that in each and every announcement the high reputation of these entertainments will be abundantly sustained. No course in this country is more replete with the first-class talent of the Platform—and in respect to culture, excellence, and worth is superior to and by far the ablest and most entertaining of any hitherto offered by Crane's Lyceum. It is a galaxy of

* * * * * * * * * * * *

and just suited to the wants of those, who, wearied with the toils of the day, seek rest and amusement such as shall be pleasing and at the same time elevating.

CONCERT EVERY NIGHT

UNDER THE DIRECTION OF

Mr. Albert Burger

This interval of 45 minutes of musical and social enjoyment has come to be an attractive and popular feature.

"Three Holiday Nights"

THANKSGIVING,

CHRISTMAS & NEW YEAR'S!

Order of Entertainments:

2. THOMAS FITCH, THURSDAY, NOV. 27th, Thanksgiving Night,

SUBJECT—"A SAGE BRUSHER IN VIENNA." Mr. Fitch has just returned from Europe, and will give his impressions, which will be sure to be unique and interesting. Mr. Fitch first appeared among us last season, and many can attest that he fully met the high expectations which Mark Twain's extravagant letter had raised.

3. THOMAS NAST, WEDNESDAY, DEC. 3.

SUBJECT—"CARICATURING," Illustrated with Sketches Drawn in Presence of the Audience. The art of caricature is the reverse of one of Wendell Phillips' "Lost Arts;" it is a just found art, at least in this country. This "instantaneous caricature" is a comparatively "new thing,"—somewhat of a "sensation." No artist in America is so well known to the people at large and so popular as Thomas Nast.

"He made his fourth public appearance last night, and we trust that the career he has rather reluctantly undertaken will prove as profitable to himself as it must be delightful to his audiences. It was refreshing; and that they were pleased, laughter and applause frequently attested."—*Lewiston, Me., Journal.*

4. HON. WILLIAM PARSONS, (Of Ireland,) TUESDAY, DEC. 9.

SUBJECT—"GEORGE STEPHENSON, Hero and Benefactor; being the story of a man self-raised from the pit to the palace."

No foreign orator has ever visited us who has been been so successful year after year in delighting American audiences by his scholarly and vivid eloquence, as Hon. William Parsons of Ireland.—It is no more than the simple truth to say that he has never been equalled in the estimation of American Lyceums. He is *par excellence* an Orator and Humorist. He never disappoints; every time we hear him he seems fresher, more touching, and more humorous. Dr. Dio Lewis says: "He cannot be compared to any other lecturer; he belongs to a *new species*." Four years ago, unheralded by his agents, and unknown to his audience, Mr. Parsons delivered his first lecture in Boston. He took rank, at once, with the greatest orators of the American Lyceum. His record since then has been the history of the most brilliant success ever achieved in this country by any trans-Atlantic orator.

"Mr. Parsons is one of the very few orators of foreign birth who have carried the New England lyceum, as it were, by storm. Managers and journalists, wherever he has spoken, vie with each other in their eulogiums of him. No other orator from 'abroad,' our brave and eloquent Anna Dickinson, alone excepted, has ever before been invited to lecture in three different courses in Boston during the same season, and also in independent lectures. This unique triumph has been won by Mr. Parsons."—*Boston Traveler.*

5. DR. J. G. HOLLAND, WEDNESDAY, DEC. 17.

SUBJECT—"THE ELEMENTS OF PERSONAL POWER."—Does Dr. Holland need any introduction? Guess not! He is an old favorite, and yet new and fresh as ever.

6. The Old Year out with JOHN B. GOUGH, "The King of the Platform," CHRISTMAS NIGHT, Thursday, Dec. 25. "NOW AND THEN,"

This most popular of all living orators has spoken 383 times in one year. It is fair to say that in such addresses he must have spoken to 300,000 different people—and the assertion is here ventured that among his grandest triumphs and greatest compliments, must be placed the greeting he received at Music Hall last season, Dec. 25th, 1872, when with the thermometer marking *fifteen degrees below zero*, 1300 people from near and far had gathered to hear him.

7. The New Year in With ANNA DICKINSON, "The Queen of the Platform," NEW YEAR'S NIGHT—THURSDAY, JANUARY 1, 1874. "For Your Own Sake."

Miss Dickinson's reception last season was the most flattering she ever received here for her sake.

8. MRS. MARY A. LIVERMORE, WEDNESDAY, JANUARY 7. SUBJECT: "*What Shall we do with our Daughters.*"

This is a conundrum a great many people feel interested in having solved. That Mrs. Livermore solves the riddle satisfactorily is attested by the extraordinary demand for this speech. In New England, where the lyceum system is thoroughly organized, and where all the best lecturers are regularly heard, Mrs. Livermore is UNEQUALLED, in popularity, by any other woman.

9. HON. WM. S. ANDREWS, WEDNESDAY, JANUARY 14. *SUBJECT:—"DIALECT HUMOR."*

No lecturer has ever kept his audiences in more constant laughter. There can be no greater evidence of his success than is to be found in the fact that he has frequently been invited to *repeat* this lecture in the same courses and before the same audience. It is interspersed with illustrations in *eighteen* dialects, representing as many phases of humorous character. "This lecture is *unique* and it differs entirely from those of the humorous lectures we are familiar with, because of the variety of its themes."

10. REV. GEO. H. HEPWORTH, Wednesday, January 21, *SUBJECT—"WHO SHALL WIN?"*

This is Mr. H.'s first appearance here, and the manager hazards nothing in the prediction that for a speech *finale*, nothing better could have been desired. Any one who has heard Hepworth's "Luck and Pluck," can safely anticipate a richer treat in this new lecture.

LOCAL INTELLIGENCE.

CITY NOTES.

—High water at Rondout Light House to-day at 6:30 P. M. and 6 A. M.

—Yesterday 27 canal boats laden with 3,445 tons of coal reached tide water at Eddyville through the Delaware & Hudson canal.

—Monday was an uncomfortable day under foot and over head, but it cheered canal boatmen, as it gave promise of keeping the canal free of ice for a while.

—The scoop and snow shovel brigade were on duty at an early hour on Monday morning in nearly all parts of the city. It is unusual to be mustered into the service twice so early in the season.

—On Monday afternoon a native of "the greenest isle of the sea" who was in a very low state, superinduced by second mate's nips of whiskey, composed himself for a snooze in the door of the iron department of Crosby & Co.'s store on Garden street, and from which for a while he utterly refused, with many profane adjectives, to remove his corpus in spite of the blandishments of the polite employees. When the disciple of Bacchus was finally got outside he calmly seated himself on the doorstep, when he entered upon the study of the various styles of architecture in Garden street, his outside clay the meanwhile becoming as moist from the rain as his inside clay was from his potations.

Boat Building.

Messrs. J. & J. McCausland, the enterprising Burgess Hook boat builders, have made a contract for building two large boats for the coal trade.

Retrenching.

The N. Y., K. & S. R. R. Directors are retrenching. The salaries of the Manager, Mr. Wm. B. Litchfield, and other officers have been cut down considerable.

Call Accepted.

Rev. M. F. Liebenau has accepted the call to become pastor of the Bloomingdale Reformed Church, near Eddyville, for one year.

Canal Navigation.

Mr. Vandling informs us that since the weather has changed less difficulty is experienced in getting boats through the Delaware & Hudson Canal, and a few days of the present temperature will see all the loaded boats locked through at Eddyville.

On the River.

Sunday night on the river, owing to the snow storm and fog, was excessively dark and many vessels were forced to come to, among them the Albany tow boats and the George A. Hoyt of Cornell's line. The latter vessel, with her tow, laid at Clearwater's dock until Monday morning, when she resumed her passage for this city.

Tickets Ready.

The tickets for the Rondout Lecture Association course of lectures are now ready and should command a rapid sale, as this is one of the best courses of lectures we have ever had. There is not one of the entertainments but is first-class. By purchasing one of these tickets a person will obtain a very large $3 worth

Canal Item.

The Scranton City Journal of last week says: "The Del. & Hud. Canal has closed for the winter. We understand that the gravity road will be kept open and about 4,000 tons per week run over it for the Jefferson road at Honesdale. The men will be employed half time—that is, one set working one week and another set the next. The wages, we learn, are not reduced."

Runaway.

Late on Saturday a team of horses belonging to a man named Beaver ran away up Division street into Abeel, where they collided with another team, whereby one of Mr. Beaver's horses was very severely cut on the body and the contents of his sleigh thrown into the road. The other man's team was not injured, but the manner in which that *hombre* slung double-jointed oaths around was a caution.

Seventy-One Years of Wedded Life.

A remarkable instance of longevity is found in the case of Mr. and Mrs. Joseph Adams, formerly of Durham, but now residents of the town of Cairo, Greene county. Mr. Adams is ninety-two years of age and his wife ninety-four. They had been seventy-one years married in June last, and still perform all their household work with the exception of the washing.

Scandalous.

According to the Kerhonkson correspondent of the Ellenville Press that village (Kerhonkson) must be the very breeding-place of social scandals. He can enumerate nearly one hundred separate and special lies going about in that neighborhood at the present time. Can "Why Not" tell us whether any clacking woman or women are the prolific mothers of such infernal small talk; and if so, why the many decent citizens of Kerhonkson do not put those women under the town pump?

The Connecticut.

The steamboat Connecticut, of Schuyler's Towing Line of Albany, landed at Rhinecliff on Monday, with the barge George English of Albany in tow, bound for Albany. We were shown aboard by her Captain, Harvey W. Temple, and first pilot, Sherman Freer. The Connecticut is a model of neatness and convenience, having on board a pair of capstans which work by steam for pulling in hawsers. These capstans will pull in two hawsers in just half the time it would take seven men to pull one in by hand. Part of her state rooms were left in when she was fitted for towing, and are fitted up in the most gorgeous style, also having been enlarged. Each room contains a full set of black walnut furniture, besides a stove (gas-burner), spring beds with hair mattresses, &c. The crew all have rooms above deck, and are not required to sleep below. The dining room is below and is fitted up in as fine style and taste as the rooms above. She was fitted up by Mr. Schuyler and was made just as convenient as possible. Her lower bits on the main deck are fine specimens of mechanical art. They were made by a young man, John Lawler, of Albany, scarcely twenty years of age. The dimensions were given him and when they were finished not a shaving had to be cut off to make them fit nicely. They are made of oak and covered with brass plating.

The Connecticut has made more trips from Albany this season than any other boat on the river, besides having larger tows, she having made one hundred and two trips. She is ow called the best and fastest tow-boat on e river. The Connecticut is owned by Mr. chuyler of Albany, one of the largest tow-boat owners on the Hudson. Her crew are omposed of Captain Harvey W. Temple; rst Pilot Sherman Freer of Milton, well-nown in ice boating, having built one of the stest ice boats on the river; Second Pilot m. Walker; Chief Engineer Charles Barrett; ond Engineer George Spoore. She also ries four firemen, five deck hands, a cook d chambermaid.

BOARD OF SUPERVISORS.

Annual Session.

JOHN D. WINFIELD, Chairman.

MONDAY, Nov. 24—7 P. M.

Board met. Quorum present.

Minutes of meetings on Friday read and approved.

Mr. Myer moved that if the parties concerned in the appeal from the action of the Auditors of the town of Kingston be present, that they now be heard. Carried.

Mr. Hiram Humphrey appeared, and said when the bills were audited before the town board no member of the board was allowed to be present during the examination or auditing of his bill; that this appeal was caused by some feeling between members of the board that had come up since the bills were audited; that he cared nothing about the amount in dollars and cents, but it reflected on his honesty. He considered himself an honest man and would like to have the whole Board act on the matter.

Referred back to the Committee on County Accounts.

Mr. Stone moved that Grove Webster's name be added to the assessment roll of the city of Kingston, it having been accidentally dropped in copying the roll. Carried.

Mr. Bruyn presented a petition from James Diamond, who claimed to be a member of the state militia, and was erroneously taxed. Referred to the city Supervisors.

The County Clerk reported that he had received no money for fines since his last report. Received and placed on file.

The reports of the following Justices of the Peace were received and placed on file: Daniel Coe, Luther Wilklow, C. W. Elting, A. C. Hasbrouck, Lloyd; John Constable, Plattekill; Dewitt C. Davis, S. K. Roosa, Olive.

Mr. Gillett offered the following:

WHEREAS, There is a possibility of effecting a settlement with Cooper and Schoonmaker as regards their claims for legal fees against the County of Ulster, and also of effecting a settlement of the John C. Brodhead matter; therefore,

Resolved, That this Board take no action upon the matter in either case until this Board shall have gone into secret session and deliberated among themselves as a body what the best course is to pursue; therefore,

Resolved, That immediately upon the adjournment of the Board of Supervisors this evening, they meet in secret session at the same place to take into consideration the best means of trying to effect a settlement of our county litigation.

Carried.

Mr. Misner presented a bill from the Railroad Commissioners of the town of Shandaken. Referred to Committee on County Accounts.

On motion of Mr. Bruyn the Board adjourned until Tuesday at 2 o'clock P. M.

The Board, in accordance with Mr. Gillett's resolution, went into secret session.

Remember the Poor.

The middle of May witnessed snow, and likewise did the middle of November. Five months without snow and frost are all that intervened, and yet the vegetable world yielded abundantly. Fruits, and nearly all kinds of grain and vegetables, are plenty and quite reasonable in price. Pork and beef are also abundant and cheap, and yet with work scarce and wages low many a poor family will quake with fear at the commencement of a long and dreary winter. It is the broadest charity in times like these for those who are blessed with a store of this world's goods to remember the poor and help them to help themselves.

Factory Enlarged.

The Matteawan Manufacturing Co., who make felt hats exclusively, are taking advantage of the dull times to erect a considerable addition to their already extensive works, by which they are enabled to keep a number of their employees at work, who would otherwise be thrown out of a job. The addition consists of a wing attached to the northwest part of the main building, to be used as a dye house and drying room. The dye house is 34 by 50 feet, and 42 feet from floor to apex of roof. The dry room is a continuation of the dye house, from which it is separated by a wall partition, and is to be divided into two stories. In size it is 27 by 18 feet. The entire building is of brick, except the roof and some solid masonry adjoining the creek. The expense of its erection will be about $4,500. The erection of it is under the general superintendence of Mr. Silas Terwilliger, carpenter for the company. The mason work was done by Mr. Schuyler Tilman.

On to Cuba!

There was once a soldier company, told of in story, the first of whose by-laws ran thus: "In case of war this company will immediately disband." One of the companies connected with the Tenth Regiment, N. Y. S. N. G., is composed of "stuff" that is "sterner" than the metal which entered into the composition of this company with the life-assuring by-law. Said company of the Tenth Regiment held a meeting last evening, at which the proposition was made that their services should be tendered to the United States government for active service against Cuba. The gore-loving soldier who made this suggestion was greeted with the utmost enthusiasm by his comrades, and after the applause which greeted his proposition had let up a little, he said that he thought it would be well if some member of the company would offer a resolution covering the ground on which he had touched. "I, myself," he added, "must be excused from offering said resolution, for the hat business is uncommonly good just at present, and I could not possibly get away."

Up to the hour of going to press to-day the resolution had not been considered by the company, because it had not been seconded.—Also because it had not been moved.—*Albany Journal.*

Denied the Soft Impeachment.

Some of the facetious chaps in upper Kingston having nothing better to amuse themselves with a day or two since went 'round that portion of this municipality informing all the bummers, near-do-wells and beats that the government had called for "a hundred thousand men or more" for service against Cuba, and that each accepted recruit would immediately receive one thousand dollars in greenbacks; and furthermore that a chap who, a few years since, was in danger of becoming chronic town clerk of Kingston was the recruiting officer. The report had the effect of causing all the above-mentioned impecunious loafers to besiege the reputed recruiting-officer to enlist them and pass over the thousand dingbats, but that high-toned gentleman waxed exceedingly wroth, and striking an imposing attitude he desired to know of the would-be recruits who surrounded him, and who, in point of dress and facial expression would have put Sir John Falstaff's cohorts to the blush, "Great Cæsar! have I lived all my life in this place to so little purpose that I am suspected of having fallen so low as to become a recruiting officer? Clear out, you scallawags; I'm *not* a warrior. Let us have peace!" "Fallen so low as to have become a recruiting officer" is good.

Election of Officers.

At a regular meeting of Mountain Pride Lodge, No. 878, I. O. of G. T., held at Phoenicia on Saturday evening, Nov. 8th, 1873, the following officers were installed for the ensuing quarter: Miss Maria Longyear, W. C. T.; Miss Myra L. Fiero, W. V. T.; W. H. Byington, W. Sec.; Edgar R. Nicklas, W. F. S.; Charles Myers, W. T.; Martin Bell, W. Chaplain; Charles Zimmerman, W. M.; James Kinkade, P. W. C. T.; Miss Mary Smith, W. D. M.; Miss Addie Vandemark, W. A. S.; Andrew Delamater, W. R. H. S.; Charles Byington, W. L. H. S.

ALONG THE RIVER.

—The Methodists of Troy are expecting a visit from Bishop Peck next week.

—The Veteran Volunteers of Poughkeepsie have tendered their services in case of need on account of the Spanish difficulties.

—Thomas Winn, suspected of committing a series of burglaries at Saratoga, was arrested in Troy on Saturday.

—Fogs on the river are very prevalent now-a-days, and steamers are frequently greatly detained thereby.

—Rev. Edwin Holmes, a well-known minister of the Reformed Church, died in Hudson, on Sunday morning, after a brief illness.

—The rates of towing by the Albany boats were increased on Saturday. The charges now are five dollars for northern and ten dollars for western boats.

—The schooner Dutchess, loaded with stone, which sunk in Haverstraw Bay, during the last heavy storm, was owned by Mr. Ira Cooper of Athens. She will undoubtedly be raised and put in repair.

—The third ward school at West Troy and five piles of lumber, the latter belonging to Smith, Craig & Co., were burned on Friday morning. Loss $5,400; insured for $6,100.

—The canal between Albany and Troy was closed on Saturday by ice. Ice was so heavy on the little basin that persons were walking on it. Thirteen boats that left Albany for the west have been stopped by the ice at Port Schuyler. There are but few boats in the little basin for the winter.

—At a meeting of the line officers of the Twenty-fourth regiment, held at the state armory last Thursday evening, the colonel commanding was instructed to tender the services of the regiment to Gov. Dix, and by him to the President of the United States, for service, if required, to aid in settling the Cuban difficulty.—*Troy Whig.*

—It is reported that the Grand Jury, now in session at Peekskill, has failed to indict John Butch of Schenectady, charged with causing the death of Emma Lidtner, who was found dead in her room at Wright's Hotel in Peekskill some time since.

—J. O. Whitehouse's shoe factory in Poughkeepsie was closed for repairs on Saturday evening. The work of repairing machinery, etc., will be completed in about ten days' time, when the factory will be re-opened with a full force, and run on full time as usual.

—A florist of Hudson, N. Y., has produced a pure variegated rose, which he named for his daughter, "Cora Macy rose." The form and fragrance of the parent rose are fully preserved, while the leaves are all variegated in red and white, blending in the most perfect manner.

—The "tight" times affect Coxsackie as well as other places. The ice house men have been cut down to $1.50, nine hours' time; Richardson's foundry is running on eight hour time, and the Malleable Iron Company has started on three-quarter time.

—Forty thousand barrels of apples have been shipped this fall at Schenectady, via the Rensselaer & Saratoga Railroad, passing through Saratoga en route to Boston. Six thousand barrels more lie at Schenectady, awaiting shipment. The immense consignment is made by one party who bought them in the western part of the state. The apples are brought to Schenectady by the Erie canal. The buyer has still six canal boat loads on the way to Schenectady.

What a City!

For four days and nights after the storm of last Monday night Flatbush avenue was allowed to remain blocked with snow six feet deep, impassable for man or beast, and left without any danger signal to a person after nightfall. With wife and child, on Friday evening last, I attempted to reach upper Kingston with a sleigh by the usual route, not dreaming of any obstruction in the roads so many days after the storm, but upon reaching St. Mary's cemetery we suddenly found ourselves floundering in the snow, which was piled fence-high, with no sign of any road. Leaving the establishment buried in the drift I fought my way through dark and snow as best I could to the nearest house, where I found Mr. Tietjen, who, with his boy, light and shovel, promptly came to our relief, when after a most pitiless wade we finally reached Kingston at a late hour, where we were compelled to remain for the night.

Now I would like to inquire whether the inexperienced Fathers of this infantile city of Kingston propose to make any attempt to keep its streets open during the winter which is somewhat likely to ensue? As the matter is of some little importance to the general public, I would suggest that this august body discuss the question briefly at its next meeting. I don't know just whose particular business it was to clear this avenue, nor can I find anyone who does; but it being a very troublesome thoroughfare in winter, when the snow falleth where the wind willeth not to let it remain, I think it would be advisable to include it in some person's especial beat who could manage to get around either with a few shovels, or the necessary stamps to place them on duty, at least forty-eight hours after every snow-storm if necessary. Mr. Tietjen told me he had offered to clear the road for $3, but the authorities, whoever they were, seemed to have advertised for sealed proposals for the work, as they thought this too much to pay.

My individual experience was only one among a score of others perhaps, as Mr. Tietjen informed me several had broken their sleighs in this drift, and they would undoubtedly join me in grateful thanks for his timely assistance. To say I should have left this road soon after passing the Alms-House, and thus avoided the blockade by taking a new street scarcely passable as yet, might have been well enough in daylight if the case had been understood. Gentlemen, it was your business as officers of a civilized commonwealth to have had this frequented street opened a few hours after the storm; and if I had met with serious accident on the occasion alluded to I should most assuredly have recovered damages from the city. It is probable that if the Tribune correspondent who so recently furnished for its columns such a glowing account of your enterprise and thrift in various ways, had got into that snowbank within a few chains of your City Hall he would have devoted a paragraph or two to that branch of your industry. A noted up-town physician tells me he too "kerwolloped" into that bank of the fleecy frosticles, could not reach his patients, and had to waste a good deal of pious perspiration to get out. Now if my friend the Mayor or any member of the Common Council wish further particulars of this affair they can call on me at my residence in Flatbush, when I will cheerfully impart what I know about that snow-drift. Give us a Flatbush avenue committee at once. Here's a fresh "Ulster County Horror!" for the Po'keepsie papers.

H. HENDRICKS.

Railroad Matters.

This week seems to be a particular busy one with railroad people. The Sheriff's postponed sale of cars and other stuff belonging to the N. Y., K. & S. R. R. is set down for the 26th, and anybody short of a house to live in this winter can select a car and have a jolly good time.

A suit has been commenced by Thomas Cornell and S. D. Coykendall for rent from the same railroad and a petition to appoint a receiver made by them. This suit is before Judge Learned, and the papers were served by the Sheriff on Saturday. The motion will be argued, we understand, on Saturday next. Caylis & Co., the German firm upon whose judgment of $79,000 the Sheriff levied upon the cars, locomotives, &c., have commenced a suit to throw the road into bankruptcy and petitioned for the appointment of an assignee. In the meanwhile the Spuyten Duyvil Iron Co. is up to something, but what we haven't heard.

All this indicates that this will be a busy week in this railroad, and the upshot is difficult to guess. The Directors however are serene, and one of them informs us that the road will not suffer anything from these proceedings.

In the Wallkill Valley Railway Company matters are about as much mixed as in the other. Vice President Sahler informed us on Monday that Treasurer Ostrander was hard at work upon the expected report upon the condition, past history and present prospects of that road. Up to a late hour last night, however, it had not reached this office; if received before going to press it will be found in another column.

A meeting of the Directors of this railroad was held at the Grand Central Hotel on Friday, at which it was resolved to fight the foreclosure suit of the second mortgage bondholders to the bitter end, and for that purpose it was resolved to employ extra counsel. Mr. Samuel Hand, who has had a hand in considerable of the railroad litigation, is to be employed, with others not yet named. It was also resolved to call a meeting of the stockholders and town commissioners to be held at the Eagle Hotel on the 3d day of December, at which the situation is to be fully considered and such action taken as the condition of affairs will permit.

A Handsome Headlight.

Mr. A. Sahler, Vice President of the Wallkill Valley Railway, exhibited down town on Monday as handsome a collection of stuffed birds upon branches as we have seen in a long while. They were nicely enclosed in a swell glass case. We got the impression from Mr. Sahler's remarks that he intended mounting each of the Wallkill Valley locomotives with one of these fine ornaments, which will be very attractive to the people along the route.

Put a Stop to It.

We haven't the slightest objection to youngsters riding down hill, for it isn't so long ago that we enjoyed that kind of sport—do yet sometimes—but we *do* object to the urchins using some of the most frequented streets in the lower portion of the city for coasting places. Many an unlucky wight has come near losing his legs, if not his life, by getting in the way of the swift-running sled of some irrepressible hoodlum who comes rushing down a sidewalk with the speed of a shot from a gun, and yells "o-u-t th' r-o-a-d!" when his sleigh is only about five feet from your shins. There are hills enough all around the city where neither vehicles nor pedestrians have occasion to go, and to such places the youngsters should be made to betake themselves when they want to ride down hill. Children will ride on the sidewalks so long as there is snow on them in spite of any number of policemen, so enforce the ordinance in regard to clearing snow from walks and that will make pedestrianism safe and comfortable.

OUR FREE PARLIAMENT.

Who is to be Mayor Next Spring?

MR. EDITOR:—In selecting the Mayor of the City of Kingston for next spring, when the present incumbent's term of office expires, we ought now to turn our attention to the filling of that office without respect to party. The present Mayor, Mr. Lindsley, is an able and worthy man who has thus far been true to the interests of our whole city and is eligible for our support. Also, Hon. A. Schoonmaker, Hon. Thomas Cornell, Mr. M. J. Madden, W. F. Romer, Alexander W. Shufeldt and others.

CRANE'S

LYCEUM ENTERTAINMENTS.

—14th YEAR.—

MR. H. M. CRANE

Has the honor to announce the following series of entertainments for the regular season of 1873-4. It has been the aim of the manager to maintain the PRESTIGE which this Lyceum has obtained, and he confidently assures the people that in each and every announcement the high reputation of these entertainments will be abundantly sustained. No course in this country is more replete with the first-class talent of the Platform—and in respect to culture, excellence, and worth is superior to and by far the ablest and most entertaining of any hitherto offered by Crane's Lyceum. It is a galaxy of

* * * * * * * * * *

and just suited to the wants of those, who, wearied with the toils of the day, seek rest and amusement such as shall be pleasing and at the same time elevating.

CONCERT EVERY NIGHT

UNDER THE DIRECTION OF

Mr. Albert Burger

This interval of 45 minutes of musical and social enjoyment has come to be an attractive and popular feature.

"Three Holiday Nights"

THANKSGIVING, CHRISTMAS & NEW YEAR'S!

Order of Entertainments:

2. THOMAS FITCH, THURSDAY, NOV. 27th, Thanksgiving Night,

SUBJECT—"A SAGE BRUSHER IN VIENNA." Mr. Fitch has just returned from Europe, and will give his impressions, which will be sure to be unique and interesting. Mr. Fitch first appeared among us last season, and many can attest that he fully met the high expectations which Mark Twain's extravagant letter had raised.

3. THOMAS NAST, WEDNESDAY, DEC. 3.

SUBJECT—"CARICATURING," Illustrated with Sketches Drawn in Presence of the Audience. The art of caricature is the reverse of one of Wendell Phillips' "Lost Arts;" it is a just found art, at least in this country. This "instantaneous caricature" is a comparatively "new thing,"—somewhat of a "sensation." No artist in America is so well known to the people at large and so popular as Thomas Nast.

"He made his fourth public appearance last night, and we trust that the career he has rather reluctantly undertaken will prove as profitable to himself as it must be delightful to his audiences. It was refreshing; and that they were pleased, laughter and applause frequently attested"—*Lewiston, Me., Journal.*

4. HON. WILLIAM PARSONS, (Of Ireland,) TUESDAY, DEC. 9.

SUBJECT—"GEORGE STEPHENSON, Hero and Benefactor; being the story of a man self-raised from the pit to the palace.

No foreign orator has ever visited us who has been so successful year after year in delighting American audiences by his scholarly and vivid eloquence, as Hon. William Parsons of Ireland.—It is no more than the simple truth to say that he has never been equalled in the estimation of American Lyceums. He is *par excellence* an Orator and Humorist. He never disappoints; every time we hear him he seems fresher, more touching, and more humorous. Dr. Dio Lewis says: "He cannot be compared to any other lecturer; he belongs to a *new species*." Four years ago, unheralded by his agents, and unknown to his audience, Mr. Parsons delivered his first lecture in Boston. He took rank, at once, with the greatest orators of the American Lyceum. His record since then has been the history of the most brilliant success ever achieved in this country by any trans-Atlantic orator.

"Mr. Parsons is one of the very few orators of foreign birth who have carried the New England lyceum, as it were, by storm. Managers and journalists, wherever he has spoken, vie with each other in their eulogiums of him. No other orator from 'abroad,' our brave and eloquent Anna Dickinson, alone excepted, has ever before been invited to lecture in three different courses in Boston during the same season, and also in independent lectures. This unique triumph has been won by Mr. Parsons,"—*Boston Traveler.*

5. DR. J. G. HOLLAND, WEDNESDAY, DEC. 17.

SUBJECT—"THE ELEMENTS OF PERSONAL POWER."—Does Dr. Holland need any introduction? Guess not! He is an old favorite, and yet new and fresh as ever.

6. The Old Year out with JOHN B. GOUGH, "The King of the Platform," CHRISTMAS NIGHT, Thursday, Dec. 25. "NOW AND THEN,"

This most popular of all living orators has spoken 383 times in one year. It is fair to say that in such addresses he must have spoken to 300,000 different people—and the assertion is here ventured that among his grandest triumphs and greatest compliments, must be placed the greeting he received at Music Hall last season, Dec. 25th, 1872, when with the thermometer marking *fifteen degrees below zero*, 1300 people from near and far had gathered to hear him.

7. The New Year in With ANNA DICKINSON, "The Queen of the Platform," NEW YEAR'S NIGHT—THURSDAY, JANUARY 1, 1874. "For Your Own Sake."

Miss Dickinson's reception last season was the most flattering she ever received here for her sake.

8. MRS. MARY A. LIVERMORE. WEDNESDAY, JANUARY 7. SUBJECT: "*What Shall we do with our Daughters.*"

This is a conundrum a great many people feel interested in having solved. That Mrs. Livermore solves the riddle satisfactorily is attested by the extraordinary demand for this speech. In New England, where the lyceum system is thoroughly organized, and where all the best lecturers are regularly heard, Mrs. Livermore is UNEQUALLED, in popularity, by any other woman.

9. HON. WM. S. ANDREWS, WEDNESDAY, JANUARY 14. *SUBJECT:—"DIALECT HUMOR."*

No lecturer has ever kept his audiences in more constant laughter. There can be no greater evidence of his success than is to be found in the fact that he has frequently been invited to *repeat* this lecture in the same courses and before the same audience. It is interspersed with illustrations in *eighteen* dialects, representing as many phases of humorous character. "This lecture is *unique* and it differs entirely from those of the humorous lectures we are familiar with, because of the variety of its themes."

10. REV. GEO. H. HEPWORTH, Wednesday, January 21, *SUBJECT—"WHO SHALL WIN?"*

This is Mr. H.'s first appearance here, and the manager hazards nothing in the prediction that for a speech *finale*, nothing better could have been desired. Any one who has heard Hepworth's "Luck and Pluck," can safely anticipate a richer treat in this new lecture.

EXTRA!!

The delay in publishing this announcement has been due to the desire to include the Barnabee Concert Troupe as a part of the general programme. Since a combination of engagements must be made (two towns in the proposed route having dropped out) in order to bring the troupe here, the manager can only say that efforts are being made to complete the engagement.

KATHAIRON

Only 50 Cents per Bottle.

It promotes the GROWTH, PRESERVES the COLOR, and increases the Vigor and BEAUTY of the HAIR.

OVER THIRTY YEARS AGO LYON'S KATHAIRON FOR THE HAIR was first placed in the market by Professor E. Thomas Lyon, a graduate of Princeton College. The name is derived from the Greek, "KATHRO," signifying to *cleanse, purify, rejuvenate, or restore*. The favor it has received, and the popularity it has obtained, is unprecedented and incredible. It increases the GROWTH and BEAUTY of the HAIR. It is a delightful dressing. It eradicates Dandruff. It prevents the Hair from turning gray. It keeps the head cool, and gives the hair a rich, soft, glossy appearance. It is the SAME in QUANTITY and QUALITY as it was over a QUARTER of a CENTURY AGO, and is sold by all Druggists and Country Stores at **only Fifty Cents per Bottle.**

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM ALCOHOL. DR. WALKER'S CALIFORNIA VINEGAR BITTERS. EUREKA

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

IS PURELY A VEGETABLE PREPARATION, composed simply of well-known ROOTS, HERBS and FRUITS, combined with other properties, which in their nature are Cathartic, Aperient, Nutritious, Diuretic, Alterative and Anti-Billious. The whole is preserved in a sufficient quantity of spirit from the SUGAR CANE to keep them in any climate, which makes the

PLANTATION BITTERS

one of the most desirable Tonics and Cathartics in the world. They are intended strictly as a

Temperance Bitters

only to be used as a medicine, and always according to directions.

They are the sheet-anchor of the feeble and debilitated. They act upon a diseased liver, and stimulate to such a degree that a healthy action is at once brought about. As a remedy to which Women are especially subject it is superseding every other stimulant. As a Spring and Summer Tonic they have no equal. They are a mild and gentle Purgative as well as Tonic. They Purify the Blood. They are a splendid Appetizer. They make the weak strong. They purify and invigorate. They cure Dyspepsia, Constipation and Headache. They act as a specific in all species of disorders which undermine the bodily strength and break down the animal spirits.

A NEW THING UNDER THE SUN

Sixteen Oil Paintings in a Book!

Never before was such an idea attempted for book-illustration; every one who has seen it pronounced it Superb. Mrs. Harriet Beecher Stowe's latest work,

Woman in Sacred History,

is a series of narrative-sketches, drawn from Scriptural, historical and legendary sources. Illustrated with Sixteen Choice Oil Chromos, after paintings by the most celebrated artists of the world, giving a rich and magnificent variety of oriental costume and beauty. Mrs. Stowe in her charming style has written a book full of interest, and without a dull page in it, which even if not illustrated would sell rapidly; but the

BRILLIANT OIL PICTURES

make it one of the most unique, original, and remarkable books ever offered. The pictures, if published separately, would readily sell for $2 each—or $32, while the entire book, with the sixteen pictures, together with the sumptuous bindings of the volume, can be had for one-fifth of that amount. The book is making a tremendous

KATHAIRON

Only 50 Cents per Bottle.

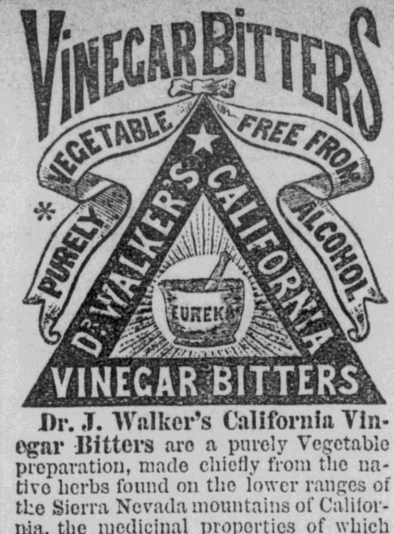

It promotes the GROWTH, PRESERVES the COLOR, and increases the Vigor and BEAUTY of the HAIR.

OVER THIRTY YEARS AGO LYON'S KATHAIRON FOR THE HAIR was first placed in the market by Professor E. Thomas Lyon, a graduate of Princeton College. The name is derived from the Greek, "KATHRO," signifying to *cleanse, purify, rejuvenate, or restore.* The favor it has received, and the popularity it has obtained, is unprecedented and incredible. It increases the GROWTH and BEAUTY of the HAIR. It is a delightful dressing. It eradicates Dandruff. It prevents the Hair from turning gray. It keeps the head cool, and gives the hair a rich, soft, glossy appearance. It is the SAME in QUANTITY and QUALITY as it was over a QUARTER of a CENTURY AGO, and is sold by all Druggists and Country Stores at **only Fifty Cents per Bottle.**

Woman's Glory is Her Hair.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

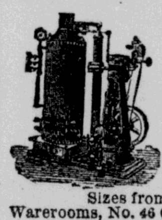

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

IS PURELY A VEGETABLE PREPARATION, composed simply of well-known ROOTS, HERBS and FRUITS, combined with other properties, which in their nature are Cathartic, Aperient, Nutritious, Diuretic, Alterative and Anti-Billious. The whole is preserved in a sufficient quantity of spirit from the SUGAR CANE to keep them in any climate, which makes the

PLANTATION BITTERS

one of the most desirable Tonics and Cathartics in the world. They are intended strictly as a

Temperance Bitters

only to be used as a medicine, and always according to directions.

They are the sheet-anchor of the feeble and debilitated. They act upon a diseased liver, and stimulate to such a degree that a healthy action is at once brought about. As a remedy to which **Women** are especially subject it is superseding every other stimulant. As a **Spring and Summer Tonic** they have no equal. They are a mild and gentle Purgative as well as Tonic. They Purify the Blood. They are a splendid Appetizer. They make the weak strong. They purify and invigorate. They cure Dyspepsia, Constipation and Headache. They act as a specific in all species of disorders which undermine the bodily strength and break down the animal spirits.

Depot, 53 Park Place, New York.

A NEW THING UNDER THE SUN

Sixteen Oil Paintings in a Book!

Never before was such an idea attempted for book-illustration; every one who has seen it pronounced it Superb. Mrs. Harriet Beecher Stowe's latest work,

Woman in Sacred History,

is a series of narrative-sketches, drawn from Scriptural, historical and legendary sources. Illustrated with Sixteen Choice Oil Chromos, after paintings by the most celebrated artists of the world, giving a rich and magnificent variety of oriental costume and beauty. Mrs. Stowe in her charming style has written a book full of interest, and without a dull page in it, which even if not illustrated would sell rapidly; but the

BRILLIANT OIL PICTURES

make it one of the most unique, original, and remarkable books ever offered. The pictures, if published separately, would readily sell for $2 each—or $32, while the entire book, with the sixteen pictures, together with the sumptuous bindings of the volume, can be had for one-fifth of that amount. The book is making a tremendous

SENSATION AMONG AGENTS

and salesmen, because it is absolutely new and "has money in it." To get pleasant work and good pay, send for terms, circulars, &c., to J. B. FORD & CO., New York, Boston, Chicago, San Francisco, or Cincinnati. Nov12w4
